Biersdorfer,David Pogue,2006-07-21 The Internet is almost synonymous with change that s one of its charms and one of its headaches You may think you know the Internet but are you really up to speed on internet telephones movie and TV downloading blogging gaming online banking dating and photosharing This utterly current book covers Getting Online Readers will have all the information they need to decide what kind of broadband connection works best for them which browser they should use and what kind of spyware fighting and virus and spam protection measures they need to protect themselves Finding Information Google may be the leading search site but it s certainly not the only game in town This book introduces a diverse and useful collection of sites that help uncover everything from health care information to shopping travel and finance to dependable reviews and ratings Movies music and photos The Web s teeming with entertainment and

not just the sort of postage stamp sized videos that only a geek could love Learn where to download movies watch TV online listen to music play games and post and share photos with friends Keeping in touch Email s only the beginning This book introduces readers to the many tools that make the modern Internet such a great way to stay connected From Web based discussion groups to instant messaging programs and from blogs and podcasts to Internet based phone calls this book will help you join the conversation Ideal for anyone just venturing into cyberspace this book is also perfect for more experienced users who could use an update to today s most exciting internet applications Google: The Missing Manual Sarah Milstein,J.D. Biersdorfer,Rael Dornfest,Matthew MacDonald,2006-03-10 Google com is one of the most popular sites on the Internet and is used around the world by millions of people every day Sure you know how to Google it when you re searching for something anything on the Web It s plenty fast and easy to use But did you know how much more you could achieve with the world s best search engine by clicking beyond the Google Search button While you can interface with Google in 97 languages and glean results in 35 you can t find any kind of instruction manual from Google Lucky for you our fully updated and greatly expanded second edition to the bestselling Google The Missing Manual covers everything you could possibly want to know about Google including the newest and coolest and often most underused what is Froogle anyway features There s even a full chapter devoted to Gmail Google s free email service that includes a whopping 2 5 GB of space This wise and witty guide delivers the complete scoop on Google from how it works to how you can search far more effectively and efficiently no more scrolling through 168 pages of seemingly irrelevant results take best advantage of Google s lesser known features such as Google Print Google Desktop and Google Suggest get your website listed on Google track your visitors with Google Analytics make money with AdWords and AdSense and much more Whether you re new to Google or already a many times a day user you re sure to find tutorials tips tricks and tools that take you well beyond simple search to Google gurudom

Linux Annoyances for Geeks Michael Jang,2006-04-05 GNU Linux is an immensely popular operating system that is both extremely stable and reliable But it can also induce minor headaches at the most inopportune times if you re not fully up to speed with its capabilities A unique approach to running and administering Linux systems Linux Annoyances for Geeks addresses the many poorly documented and under appreciated topics that make the difference between a system you struggle with and a system you really enjoy This book is for power users and system administrators who want to clear away barriers to using Linux for themselves and for less trained users in their organizations This book meticulously tells you how to get a stubborn wireless card to work under Linux and reveals little known sources for wireless driversand information It tells you how to add extra security to your systems such as boot passwords and how to use tools such as rescue disks to overcome overly zealous security measures in a pinch In every area of desktop and server use the book is chock full of advice based on hard earned experience Author Michael Jang has spent many hours trying out software in a wide range of environments and carefully documenting solutions for the most popular Linux distributions The book focuses on Red Hat

Fedora SUSE and Debian Many of the topics presented here are previously undocumented or are discussed only in obscure email archives One of the valuable features of this book for system administrators and Linux proponents in general is the organization of step by step procedures that they can customize for naive end users at their sites Jang has taken into account not only the needs of a sophisticated readership but the needs of other people those readers may serve Sometimes a small thing for a user such as being able to play a CD or for an administrator such as updating an organizations systems from a central server can make or break the adoption of Linux This book helps you overcome the most common annoyances in deploying Linux and trains you in the techniques that will help you overcome other problems you find along the way In keeping with the spirit of the Annoyances series the book adopts a sympathetic tone that will quickly win you over Rather than blaming you for possessing limited Linux savvy Linux Annoyances for Geeks takes you along for a fun filled ride as you master the system together

CSS: The Missing Manual David Sawyer McFarland, 2006-08-24 Web site design has grown up Unlike the old days when designers cobbled together chunky HTML bandwidth hogging graphics and a prayer to make their sites look good Cascading Style Sheets CSS now lets your inner designer come out and play But CSS is not just a tool to pretty up your site it is a reliable method for handling all kinds of presentation from fonts and colors to page layout CSS The Missing Manual clearly explains this powerful design language and how you can use it to build sparklingly new Web sites or refurbish old sites that are ready for an upgrade Like their counterparts in print page layout programs style sheets allow designers to apply typographic styles graphic enhancements and precise layout instructions to elements on a Web page Unfortunately due to CSS s complexity and the many challenges of building pages that work in all Web browsers most Web authors treat CSS as a kind of window dressing to spruce up the appearance of their sites Integrating CSS with a site s underlying HTML is hard work and often frustratingly complicated As a result many of the most powerful features of CSS are left untapped With this book beginners and Web building veterans alike can learn how to navigate the ins and outs of CSS and take complete control over their Web pages appearance Author David McFarland the bestselling author of O Reilly s Dreamweaver The Missing Manual combines crystal clear explanations real world examples a dash of humor and dozens of step by step tutorials to show you ways to design sites with CSS that work consistently across browsers You ll learn how to Create HTML that s simpler uses less code is search engine friendly and works well with CSS Style text by changing fonts colors font sizes and adding borders Turn simple HTML links into complex and attractive navigation bars completely with CSS only rollover effects that add interactivity to your Web pages Style images to create effective photo galleries and special effects like CSS based drop shadows Make HTML forms look great without a lot of messy HTML Overcome the most hair pulling browser bugs so your Web pages work consistently from browser to browser Create complex layouts using CSS including multi column designs that don t require using old techniques like HTML tables Style Web pages for printing Unlike competing books this Missing Manual doesn t assume that everyone in the world only surfs the Web with Microsoft s Internet

Explorer our book provides support for all major Web browsers and is one of the first books to thoroughly document the newly expanded CSS support in IE7 currently in beta release Want to learn how to turn humdrum Web sites into destinations that will capture viewers and keep them longer Pick up CSS The Missing Manual and learn the real magic of this tool

Google Apps: The Missing Manual Nancy Conner, 2008-05-27 Among its many amazing applications Google now has web based alternatives to many of the applications in Microsoft Office This comprehensive and easy to follow new book enables you to explore Google's new office applications in detail Once you do you'll be in good company more than 100 000 small businesses and some corporations are already looking to take advantage of these free Google offerings Google Apps The Missing Manual teaches you how to use three relatively new applications from Google Docs and Spreadsheets which provide many of the same core tools that you find in Word and Excel and Google Calendar and Gmail the applications that offer an alternative to Outlook This book demonstrates how these applications together can ease your ability to collaborate with others and allow you access to your documents mail and appointments from any computer at any location Of course as remarkable as these applications are Google's office suite is definitely a work in progress Navigating what you can and can't do and more importantly understanding how to do it isn't always easy And good luck finding enough help online Google Apps The Missing Manual is the one book you need to get the most out of this increasingly useful part of the Google empire This book Explains how to create save and share each of Google's web based office applications Offers separate sections for Docs and Spreadsheets Google Calendar and Gmail Demonstrates how to use these applications in conjunction with one another Gives you crystal clear and jargon free explanations that will satisfy users of all technical levels Many of you already use Gmail but do you know its full potential Do you know how you can increase its power by using Gmail with Docs and Spreadsheets and Google Calendar You'll find out with Google Apps The Missing Manual You'll also come to understand why large corporations such as General Electric and Proctor Gamble are taking a long hard look at these applications
