The Casquet of Literature Charles Gibbon, 1874 The Bookman's Manual Bessie Graham, 1921 The Gentleman's Magazine ,1877 Bookman's Manual Bessie Graham, 1921 **Literature Incorporated** John O'Brien, 2015-12-29 Long before Citizens United and modern debates over corporations as people such organizations already stood between the public and private as both vehicles for commerce and imaginative constructs based on groups of individuals In this book John O Brien explores how this relationship played out in economics and literature two fields that gained prominence in the same era Examining British and American essays poems novels and stories from the seventeenth through the nineteenth centuries O Brien pursues the idea of incorporation as a trope discernible in a wide range of texts Key authors include John Locke Eliza Haywood Harriet Martineau and Edgar Allan Poe and each chapter is oriented around a type of corporation reflected in their works such as insurance companies or banks In exploring issues such as whether sentimental interest is the same as economic interest these works bear witness to capitalism's effect on history and human labor desire and memory This period s imaginative writing O Brien argues is where the unconscious of that process left its mark By revealing the intricate ties between literary models and economic concepts Literature Incorporated shows us how the business corporation has shaped our understanding of our social world and ourselves Money, Language, and Thought Marc Shell, 2023-12-22 In Money Language and Thought Marc Shell explores the interactions between linguistic and economic production as they inform discourse from Chretien de Troyes to Heidegger Close readings of works such as the medieval grail legends The Merchant of Venice Goethe's Faust and Poe's The Gold Bug reveal how discourse has responded to the dissociation of symbol from thing characteristic of money and how the development of increasingly symbolic currencies has involved changes in the meaning of meaning Pursuing his investigations into the modern era Shell points out significant internalization of economic form in Kant Hegel and Heidegger He demonstrates how literature and philosophy have been driven to account self critically for a money of the mind that pervades all discourse and concludes the book with a discomforting thesis about the cultural and political limits of literature and philosophy in the modern world In Money Language and Thought Marc Shell explores the interactions between linguistic and economic production as they inform discourse from Chretien de Troyes to Heidegger Close readings of works such as the medieval grail legends The Merchant of Alchemy and Amalgam Emily Salines, 2004 Alchemy and Amalgam explores a relatively un researched area of the Ven Baudelairean corpus his translations from English and relates them to the rest of his works It seeks to establish a link between translational and creative writing arguing for a reassessment of the place of translation in Baudelaire's writing method Rather than a sideline in Baudelaire's creative activities translation is thus shown to be a central form of dual writing at the core of his works Baudelaire's translations from English his constant rewriting of pre existing material including his own the doublets the transpositions d art and the art criticism are all based on an approach to writing which is essentially

derivative but also transformative Thus the Baudelairean experiment illustrates the limits of romantic notions of originality creativity and genius reminding us that all writing is intrinsically intertextual It also shows the complexity of translation as a form of creation at the core of modern writing The book is one of the first of its kind to link the study the translational activity of a major writer to his creative writings It is also one of the first to provide an integrated presentation of French 19th century translation approaches and to link them to questions of copyright and authorship in the context of the rise of capitalism and romantic views of creation and genius It offers therefore a new perspective both on translation history and on literary history Alchemy and Amalgam will be of interest to students of translation comparative literature and French studies

Adorno, Gershom Scholem, 2021-05-06 At first glance William Mathews.1881 Theodor W Adorno s critical social theory and Gershom Scholem s scholarship of Jewish mysticism could not seem farther removed from one another To begin with they also harbored a mutual hostility But their first conversations in 1938 New York were the impetus for a profound intellectual friendship that lasted thirty years and produced more than 220 letters These letters discuss the broadest range of topics in philosophy religion history politics literature and the arts as well as the life and the work of Adorno and Scholem's mutual friend Walter Benjamin Unfolding with the dramatic tension of a historic novel the correspondence tells the story of these two intellectuals who faced tragedy destruction and loss but also participated in the efforts to reestablish a just and dignified society after World War II Scholem immigrated to Palestine before the war and developed his pioneering scholarship of Jewish mysticism before and during the problematic establishment of a Jewish state Adorno escaped Germany to England and then to America returning to Germany in 1949 to participate in the efforts to rebuild and democratize German society Despite the differences in the lifepaths and worldviews of Adorno and Scholem their letters are evidence of mutual concern for intellectual truth and hope for a more just society in the wake of historical disaster The letters reveal for the first time the close philosophical proximity between Adorno's critical theory and Scholem's scholarship of mysticism and messianism Their correspondence touches on guestions of reason and myth progress and regression heresy and authority and the social dimensions of redemption Above all their dialogue sheds light on the power of critical materialistic analysis of history to bring about social change and prevent repetition of the disasters of the past
