Entrich,2017-12-07 This book examines why Japan has one of the highest enrolment rates in cram schools and private tutoring worldwide It sheds light on the causes of this high dependence on shadow education and its implications for social inequalities The book provides a deep and extensive understanding of the role of this kind of education in Japan It shows new ways to theoretically and empirically address this issue and offers a comprehensive perspective on the impact of shadow education on social inequality formation that is based on reliable and convincing empirical analyses Contrary to earlier studies the book shows that shadow education does not inevitably result in increasing or persisting inequalities but also inherits the potential to let students overcome their status specific disadvantages and contributes to more opportunities in education Against the background of the continuous expansion and the convergence of shadow education systems across the globe the findings of this book call for similar works in other national contexts particularly Western societies without traditional large scale shadow education markets The book emphasizes the importance and urgency to deal with the modern excesses of educational expansion and education as an institution in which the shadow education industry has made itself seemingly indispensable      *Demotivation in Second Language Acquisition* Keita Kikuchi,2015-08-05 SLA literature tends to focus predominantly on what motivates language learners but what demotivates them has not been widely discussed This book focusing exclusively on demotivation will help readers to understand motivational issues from a different perspective The aims of the work are threefold to present the current developments of demotivation research in the field of SLA and

bridge motivational theory research and demotivation research to promote the understanding of possible causes of demotivation and to expand the focus of demotivation research through a reflection on current motivation theory research and a discussion of methodological issues The research presented in this book is situated in Japanese English teaching contexts and will serve as a foundation for anyone wishing to better understand the causes of demotivation in SLA and to explore the topic in their own contexts

*The Education Invasion* Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation s schools Who benefits And how can citizens regain local self governance in education so their children s minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats *The Education Invasion* offers answers and remedies
