

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

West,2013-07-15 Nearly a century ago famed educator John Dewey said that if we teach today s students as we taught yesterday s we rob them of tomorrow That wisdom resonates more strongly than ever today and that maxim underlies this insightful look at the present and future of education in the digital age As Darrell West makes clear today s educational institutions must reinvent themselves to engage students successfully and provide them with the skills needed to compete in an increasingly global technological and online world Otherwise the American education system will continue to fall woefully short in its mission to prepare the population to survive and thrive in a rapidly changing world West examines new models of education made possible by enhanced information technology new approaches that will make public education in the post industrial age more relevant efficient and ultimately more productive Innovative pilot programs are popping up all over the nation experimenting with different forms of organization and delivery systems Digital Schools surveys this promising new landscape examining in particular personalized learning realtime student assessment ways to enhance teacher evaluation the untapped potential of distance learning and the ways in which technology can improve the effectiveness of special education and foreign language instruction West illustrates the potential contributions of blogs wikis social media and video games and augmented reality in K 12 and higher education Technology by itself will not remake education But if today s schools combine increased digitization with needed improvements in organization operations and culture we can overcome current barriers produce better results and improve the manner in which schools function And we can get back to teaching for tomorrow rather than for yesterday **Ancient and Indigenous Wisdom Traditions in the Americas** Ehaab

Abdou,Theodore Zervas,2024-08-01 This book brings attention to the understudied and often overlooked question of how curricula and classroom practices might inadvertently reproduce exclusionary discourses and narratives that omit or negate particular cultures histories and wisdom traditions With a focus on representations and classroom practices related especially to ancient and Indigenous wisdom traditions and cultures it includes unique contributions from scholars studying these questions in various contexts The book offers a range of important studies from various contexts across the Americas including Canada the various member nations of the Caribbean Community CARICOM Puerto Rico and the United States The various chapter contributions address and discuss nuances of each of the contexts under study The contributions also help

highlight some key commonalities across these contexts including how dominant discourses and various forces have historically shaped and continue to shape and reproduce such omissions misrepresentations and marginalization In addition to seeking to reconcile with some of these ancient and Indigenous wisdom traditions and cultures the book charts a path forward toward more holistic analytical frameworks as well as more inclusive and balanced representations and classroom practices in these aforementioned geographic contexts and beyond It will appeal to scholars researchers undergraduate and graduate students with interests in Indigenous education curriculum studies citizenship education history of education religion and educational policy

Respect for Teachers Brian Ford,2012-12-27 For over 30 years we have been in the midst of a paradox Following a questionable logic that sees education as a means to economic ends efforts to reform education have focused on keeping the US from slipping in international economic competition Relying on testing as a standard in the end we may have decreased our human potential and become less competitive Our system has gotten worse at its core in its philosophical tenets and in its ultimate effects by placing unwonted pressure on our youth and in stifling their creativity While this goes back decades Respect for Teachers takes its title from a phrase perhaps a codeword in President s 2011 State of the Union address and sits down to consider its implications Connecting attacks on teachers unions and schools and the misrepresentation of research to the promotion of new economic models in education it suggests that the Obama administration may be without quite realizing it setting the stage for rapid privatization of the public system As this endangers the egalitarian basis of democracy it also reminds us that schooling is big business many trillions of dollars world wide Joseph Schumpeter once said No bourgeoisie ever disliked war profits Respect operates under the premise that no bourgeoisie ever disliked the spoils of school reform either
