Naval Ordnance Systems Command, The Ultimate Gun Control Solution Charles ODonnell,2024-02-13 Too many kids with guns are driving up violent crime rates and needless firearm deaths What can we do about it This book contains over two dozen solutions that will reduce firearm deaths without invoking the wrath of the U S Supreme Court or violating anyone's second amendment gun rights Many only require a signature There are an estimated 50 million Gun owners in the United States Taking everyone's guns away is neither practical nor legal Gun buy backs do not reduce crime Defunding police does not work Gun laws are ignored by criminals This book is neither pro gun nor anti gun It explores the experiences the statistics and the impact of various gun control strategies that have been used globally as well as within individual States Much of what we are doing has already been proven to be ineffective in other countries Some strategies do work where statistics support these approaches this book expands on them in detail The author has also injected a few personal suggestions and insights into the problems of trying to control guns by mandates rather than by using voluntary measures which produce a better result with less government intrusion In the end the author proposes five major initiatives that can substantially reduce overall crime and death or injury from firearms "Saturday Night Special" Handguns United States. Congress. Senate. Judiciary,1972 National FFA Chapter Safety Award Handbook ,1984 **USDA Forest Service Research Paper INT.** , Guns across America Robert Spitzer,2015-04-13 In vast swathes of America the sacredness of the Second Amendment has become a political third rail never to be questioned Gun rights supporters wear tri cornered hats wave the stars and stripes and ask what would have happened if the revolutionaries had been unarmed when the British were coming They have had great success in conflating unfettered gun ownership with the Founding Fathers the Constitution and all things American even in an era of repeated mass shootings Yet the all too familiar narrative of America's gun past echoed in the Supreme Court's Heller gun rights decision is not only mythologized but historically wrong As Robert J Spitzer demonstrates in Guns across America gun ownership is as old as the nation but so is gun regulation Drawing on a vast new dataset of early gun laws reflecting every imaginable type of regulation Spitzer reveals that firearms were actually more strictly regulated in the country's first three centuries than in recent years The first gun grabbers were not 1960's Chablis drinking liberals but seventeenth century rum guzzling pioneers and their legacy continued through strict gun regulations in the 1920s and beyond Spitzer examines interpretations of the Second Amendment the assault weapons controversy modern stand your ground laws and the so called right of rebellion to show that they play out in America's contemporary political

landscape in ways that bear little resemblance to our imagined past And as gun rights proponents seek to roll back gun laws and press as many guns into as many hands as possible warning that gun rights are endangered they sidestep the central question are stricter gun laws incompatible with robust gun rights Spitzer answers this question by examining New York State s tough gun laws where his political analysis is complemented by his own quest for a concealed carry handgun permit and construction of a legal AR 15 assault weapon Not only can gun rights and rules coexist but they have throughout American history Guns across America reveals the long hidden truth that gun regulations are in fact as American as apple pie
