Organic Homemade Lotion Recipes Jasmine Wood, 2015-01-26 The first step in picking out the correct products and in making homemade creams and a lotion is to use something that s right for you Depending on your age diet and genetics you will primarily fall into one of the following 5 skin types 1 Normal Skin The simplest to maintain normal skin has little to no oily spots maintains regular circulation with little to no trouble spots It s fairly elastic and looks healthy with very little make up and attention 2 Oily Skin Most prone to breakouts the trouble zones are usually in the T zone of your face forehead nose and chin oily skin tends to have oversized pores and can look greasy or shiny With the right creams and proper diet its oil levels can be maintained Oily skin tends not to have much wrinkling or aging 3 Dry Skin Most people with dry skin feel tightness after washing their face and easily flake around the mouth and nose with dry spots Dry skin is prone to aging and wrinkling and it s important to properly moisturize and nourish it regularly 4 Sensitive Skin The sensitive skin type becomes irritated easily gets red and dry spots and breaks out easily This skin type is like a historical map it tends to wear all of its battles for all to see The type of creams and lotions applied on sensitive skin is extremely important as an irritation or reaction can occur with certain ingredients and chemicals 5 Combination Skin The most

common skin type in women combination skin is both oily and dry Combination skin tends to be dry on the cheeks and around the eyes and oily spots on the forehead and nose IT requires more cleansing in the oily areas and sensitive creams without too much oil in the dry areas In this guide we focus on the three extreme skin cases grouping normal combination and sensitive into a Sensitive Category Because combination and normal skin is the most adaptable to most products anything created for sensitive skin will only promote health and the look of younger suppler skin with a clear complexion The other two are oily and dry skin types
