Publishers Staff,2002 **Choosing Excellence in Public Schools** David W. Hornbeck,Katherine Conner,2009-06-15
Choosing Excellence in Public Schools explains the origins of the low expectations we have of children including notably
children of color those for whom English is a second language poor children and children with disabilities The book dispels
the basis for low expectations It makes clear the economic demographic civic personal and moral imperative to educate all
children to high standards and the consequences of not doing so Hornbeck and Conner set forth a comprehensive radical
agenda based on proven practices and practical experience that will result in education success for virtually all children
where faithfully implemented This book breaks new ground It establishes that the missing ingredient in school reform is the
absence of values driven focused well financed professionally staffed technologically sophisticated grassroots expression of
the public will insisting that the political media business judicial and organized labor institutions that make the choices that
result in our children s learning conditions make different and effective choices We get the education for our own children
and grandchildren and those of others that we tolerate or demand **Harcourt School Publishers Math ,2001-03**

Publishing,1997-10-10 *The Language Demands of School* Alison L. Bailey,2007-01-01 The Language Demands of School is
an edited volume describing an extensive empirical base for academic English testing instruction and professional
development The chapters comprise empirical research by Bailey and colleagues at the National Center for Research on
Evaluation Standards Student Testing CRESST at UCLA and invited contributions by practitioners in the fields of language
policy testing and instruction The central focus of the chapters is the research conducted by CRESST over the last two years
in an attempt to document the academic English language demands placed on school age learners of English The three
additional chapters give the perspectives of a policy maker at the state level test developers and practitioners The Language
Demands of School fills a gap in the current literature by addressing the kind s of English required of K 12 English Learner
students from an evidence based perspective This is timely given the broader context of the No Child Left Behind Act of 2001
which has prompted school systems to identify English language proficiency tests to meet the federal mandate One of the
problems that has surfaced in the search for English language tests for K 12 English Learner students is the inadequacy of
existing research on the development of the academic English language skills that all students both English Learner and
native English speaking need to be successful in the school setting The Language Demands of School is devoted to exploring

this topic and to presenting research that illuminates both the questions and the answers **Harcourt Health & Fitness**
