Practitioner's Handbook on International Arbitration and Mediation - Third Edition Richard Chernick, Daniel M. Kolkey, Barbara Reeves Neal, 2012-04-01 The Practitioner's Handbook on International Arbitration and Mediation 3rd Edition is a unique work with each chapter written by a well known practitioner and expert in the field. It covers each step of the international arbitration and mediation process and offers separate chapters that summarize the laws of leading arbitral venues. This Handbook is intended to make the reader into a better practitioner or arbitrator/mediator. Moreover, each chapter has been written to provide practical advice and guidance. Unlike many works with multiple authors, this work is not simply a collection of essays on a general subject. This book is a unified work with cross references among the chapters and a consistent format throughout. The Practitioner's Handbook is divided into three parts. Part One describes in detail each step of the international arbitration process and offers tips. Part Two deals with each step and facet of an international mediation. Each of these chapters is filled with Practitioners' Expert Commentary. Part Three summarizes the laws of leading arbitral jurisdictions like Hong Kong, England, Switzerland, and France. These chapters give you detailed guidance on the laws governing international arbitration in that particular jurisdiction. As a result, the chapters in Part Three are a bit more technical, as the authors realized that the reader would need citations to and commentary on the local arbitration statutes and rules. The CD-ROM that accompanies this Work contains relevant original source material that is germane to the text. A review of the table of contents of the material contained on the CD-ROM will acquaint you with the range of material covered.

Oxford Handbooks provide scholars and graduate students with compelling new perspectives upon a wide range of subjects in the humanities and social sciences. The Oxford Handbook of International Investment Law aims to provide the first truly exhaustive account of the current state and future development of this important and topical field of international law. The Handbook is divided into three main parts. Part One deals with fundamental conceptual issues. Part Two deals with the main substantive areas of law, and Part Three deals with the major procedural issues arising out of the settlement of international investment disputes. The book has a policy-oriented introduction setting the more technical chapters that follow in their policy environment within which contemporary norms for international foreign investment law are evolving. The Handbook concludes with a chapter
