 Recent developments in this field of small corpus studies largely brought about by the personal computer have yielded  
 remarkable insights into the nature and use of real language This book presents work by a number of leading researchers in  
 the field and covers a series of topics directly related to language teaching and language research The ultimate aim of this  
 book is to encourage the exploitation of small corpora by the ELT profession to make language learning more effective In  
 addition to descriptions of the basic corpus analysis tools chapters in the collection cover syllabus and materials design  
 comparisons of different genres descriptions of local and functional grammars compilation and use of learner corpora and  
 making cross linguistic comparisons The message of this collection is that language use is purposeful and culture specific  
 and that small corpus analysis is an effective method of linguistic investigation Preface by John Sinclair     **The Morning**
