Obsessive-Compulsive Spectrum Disorders Eric Hollander,Joseph Zohar,Paul J. Sirovatka,Darrel A. Regier,2010-05-28 The five year process of preparing for the revision of the Diagnostic and Statistical Manual DSM has been organized around a series of conferences convened by the American Psychiatric Association in collaboration with the World Health Organization and the U S National Institutes of Health to address the future of psychiatric diagnosis Obsessive Compulsive Spectrum Disorders Refining the Research Agenda for DSM V is the fruit of one of those conferences and presents the most academically sound thought provoking and timely papers from the proceedings As the conference and book demonstrate recent advances in psychiatric diagnosis suggest a new approach to obsessive compulsive disorder OCD classification Research into the pathogenesis of OCD increasingly supports reclassification out of the anxiety disorders and into a separate group of obsessive compulsive related disorders OCRDs The relationships among OCRDs may be better defined delineated and understood if the current categorical diagnostic approach is supplemented with a dimensional approach which assesses obsessive compulsive symptom domains Obsessive compulsive disorders are believed to be

underdiagnosed in patients who complain of broad symptoms of anxiety and reclassification of OCD as an OCRD would promote more careful examination of distinct obsessive compulsive symptoms yield more accurate diagnosis and result in more effective treatments Reclassification may facilitate future research directions in examining the biological underpinnings of these disorders In addition to examining the genetic neurological and ethno cultural bases for OCRDs the book gives special attention to disorders that cross current diagnostic categories including Body dysmorphic disorder BDD Tourette s syndrome and trichotillomania Impulse control disorders The process leading to publication of DSM V is by its nature an exhaustive and complex one and the conferences play a critical role in reviewing relevant research assessing the status of scientific knowledge and advancing that knowledge base Obsessive Compulsive Spectrum Disorders Refining the Research Agenda for DSM V represents the cutting edge thinking that will culminate in new diagnoses classifications and standards of practice for this debilitating set of disorders Clinicians and academicians will be fascinated by this glimpse into the next generation of the DSM V

Teaching and Learning at a Distance Michael Simonson,Susan Zvacek,2024-01-01 Teaching and Learning at a Distance is written for introductory distance education courses for preservice or in service teachers and for training programs that discuss teaching distant learners or managing distance education systems This text provides readers with the basic information needed to be knowledgeable distance educators and leaders of distance education programs The teacher or trainer who uses this book will be able to design courses evaluate programs and identify issues and trends affecting the field In this text we take the following themes The first theme is the definition of distance education Before we started writing the first edition of Teaching and Learning at a Distance we carefully reviewed the literature to determine the definition that would be at the foundation of our writing This definition is based on the work of Desmond Keegan but is unique to this book and has been adopted by the Association for Educational Communications and Technology and by the Encyclopedia Britannica The second theme of the book is the importance of research to the development of effective courses and programs offered at a distance The best practices presented in Teaching and Learning at a Distance are validated by scientific evidence Certainly there are rules of thumb but we have always attempted to only include recommendations that can be supported by research The third theme of Teaching and Learning at a Distance is derived from Richard Clark s famous quote published in the Review of Educational Research asserting that media are mere

vehicles that do not directly influence achievement Clark's controversial work is discussed in the book but is also fundamental to the book's advocacy for distance education in other words we authors do not make the claim that education delivered at a distance is inherently better than other ways people learn Distance delivered instruction is not a magical approach that makes learners achieve more Equivalency theory is the fourth theme of the book Here we present the concept that instruction should be provided to learners that is equivalent rather than identical to what might be delivered in a traditional environment Equivalency theory helps the instructional designer approach the development of instruction for each learner without attempting to duplicate what happens in a face to face classroom The final theme for Teaching and Learning at a Distance is the idea that the book should be comprehensive that it should cover as much of the various ways instruction is made available to distant learners as is possible It can serve as a stand alone source of information

Environmental Design and Human Behavior Leonard Krasner, 2013-10-22 *Environmental Design and Human Behavior* A Psychology of the Individual in Society outlines the fundamental principles that govern the concept of environmental design in the context of human behavior The first part of the text deals with theoretical and historical influences of environmental design along with the ethical and value context The selection also covers methods for assessments of environment and interactionists approach to environmental design The next part details the application of environmental design this part tackles topics such as environmental design in the classroom designing an ideal classroom and implementation process and personal experience The book will be of great use to behavioral scientists sociologists community health and social workers and professionals involved in the designing of environment such as city planners
