This book contains the papers presented at the International Conference on Current Issues of Science and Research in the Global World held at the premises of the Vienna University of Technology from May 27 to May 28, 2014. The book represents a significant contribution to Law, Economics, Information, Communication, Technologies, Journalism, and Psychology, including topical research work in the presented fields. This interdisciplinary volume is also essential reading for all those interested in international pluralism in terms of scientific contributions. The Pan European University, respecting its own vision and ambition to become a well-known institution within the Global Research Area, traditionally elaborates research and scientific collaboration across national borders. The educational principles and research attitudes of the Pan European University grasp the traditions of many cultures and geographic areas. The International Conference on Current Issues of Science and Research in the Global World was part of a series of similar top-rated international events organized by the Pan European University, bringing together scientists, professionals, policymakers, and representatives of culture from many countries. Intercultural Competencies in China Helena Maria Lischka, Peter Kürble, 2017-10-04. This volume focuses on a market that is one of the world's economically most important and at the same time one of the most difficult to understand culturally at least from a Western point of view. China is the world's second largest economy in terms of nominal GDP and the largest in terms of purchasing power parity. At the same time, China has one of the world's oldest cultures and was the cradle for extremely influential philosophical approaches that even today continue to have a tremendous impact on every sphere of Chinese society. As a result, business in China is directly or indirectly influenced by a distinct Chinese pragmatism, personalized networking, *guanxi*, the concept of saving face, and the idea of business as a battlefield. Familiarity with Chinese culture and negotiating practices is a key factor for promoting successful business transactions. In this book, the authors aim to close the gap between publications that are of purely academic interest on the one hand and general guidebooks on the other. *Intercultural Competencies in China* provides a comprehensive selection of topics that are crucial for understanding what lies behind cultural differences, making the book essential reading for business purposes and private contacts in China. Although the book is academically oriented, all of the essays are also accessible for the general reader. **The International Business Archives Handbook** Alison Turton, 2017-09-19.
