Videoland offers a comprehensive view of the tangible phase of consumer video when Americans largely accessed movies as
material commodities at video rental stores Video stores served as a vital locus of movie culture from the early 1980s until
the early 2000s changing the way Americans socialized around movies and collectively made movies meaningful When films
became tangible as magnetic tapes and plastic discs movie culture flowed out from the theater and the living room entered
the public retail space and became conflated with shopping and salesmanship In this process video stores served as a crucial
embodiment of movie culture's historical move toward increased flexibility adaptability and customization In addition to
charting the historical rise and fall of the rental industry Herbert explores the architectural design of video stores the social
dynamics of retail encounters the video distribution industry the proliferation of video recommendation guides and the often
surprising persistence of the video store as an adaptable social space of consumer culture Drawing on ethnographic
fieldwork cultural geography and archival research Videoland provides a wide ranging exploration of the pivotal role video
stores played in the history of motion pictures and is a must read for students and scholars of media history Choice of
