1 Refer to the Composite Exploded View on page 2 (Grid A2). It contains major engine components boxed and identified by Group Number. Examine these groups for your part. After you locate your part, record the Group Number.

If the part you need is not illustrated, locate a major engine component related to your part and use this component to identify the Group Number.

2 Obtain the Spec Number from the nameplate attached to the engine shrouding. Refer to the Spec Number Index beginning on page 3 (Grid A4). Listed vertically on the left are Spec Numbers. Listed horizontally across

the top are Group Numbers and their Size, Page and Grid Numbers.

Locate your Spec Number. Follow horizontally from your Spec Number to the Group Number column. Where these two columns meet is the Variation Number of your part. Record that Variation Number.

3 Refer to the page (or grid) where your part is listed. Locate the part in the illustration, use its identifying index letter to locate the part name in the listing. Find the Variation Number of your part in those listed below the part name. Your part number is listed to the right of the Variation Numbers.

Illustrations are not intended to show the exact detail for all variations covered.
