**Impressions of French Modernity** Richard Hobbs,1998-04-15 Encounters with modern life a painter s impressions of modernity Delacroix citizen of the 19th century Michele Hannoosh Second Empire impressions curiosite John House on his knees to the past Gautier Ingres and forms of modern art James Kearns Le peintre de la vie moderne and La peinture de la vie ancienne Paul Smith Innovating forms matter for reflexion 19th century French art critics quest for modernity in sculpture David Scott visual display in the realist novel l aventure du style dirt and desire troubled waters in realist practice Alan Krell Modernity and identity the dancer as woman Loie Fuller and Stephanie Mallarme Dee Reynolds the atelier novel painters as fiction Joy Newton to move the eye impressionism symbolism and well being circa 1891 Richard Schiff r sum diteur *The French Language in the Seventeenth Century* Peter Rickard,1992 The sixty French texts edited here are all direct commentaries by contemporary authors on the French language in the 17th century By this time French had begun to assert its independence in its written and printed form it was being used for a wide variety of literary technical and administrative purposes Its practitioners not only successfully challenged the hitherto dominant position of Latin but also began for the first time to discuss and analyse for its own sake the language which was now their preferred medium for expression hence in the first half of the seventeenth century a growing number of publications on the nature and characteristics of French The texts demonstrate the sustained critical preoccupation with the welfare of the French language in the 17th century and illustrate the various ways in which the writers of the age contributed to its development as an instrument of literary expression and social intercourse **Catholicism, Politics and Society in Twentieth-century France** Kay Chadwick,2000-01-01 Catholicism once the protean monster still functions as a complex component of French identity No consideration of modern France would be complete without reference to the enduring impact and influence of Catholicism on the life of the nation This volume sets out to capture some of the variety and significance of the Catholic phenomenon in twentieth century secular France and to express something of its extraordinary vitality and interest Each contribution focuses on a specific theme or period crucial to an understanding of the role played by French Catholics and their Church Collectively these studies reveal that Catholics were involved in almost every event of consequence and voiced an opinion on almost every issue Equally the volume offers a collage of insights which reflects the fragmentation of Catholic activity and attitudes as the century progressed Being Catholic in modern France no longer means the espousal of a particular political or social agenda Nor does it necessarily mean regular and traditional religious observance or even strict adherence to the dictates of the Church Modern French Catholicism truly has many mansions **Publishers' circular and booksellers' record** ,1889 **The New Bibliopolis** Willa Z. Silverman,2008-01-01 The late nineteenth century in Europe was a period of profound political social and technological change One result of these changes was the rise in France of an upper bourgeois bohemian class Many of its members stimulated interest in unique forms of artistic expression such as

illustrated books On account of their influence an atmosphere of intense bibliophilic activity came to define French culture at the turn of the century The New Bibliopolis explores the role of amateurs in promoting the book arts in France during this period Drawing on extensive original research Willa Z Silverman looks at the ways in which book collectors supported print culture She shows how through the admiration demonstrated by collectors for this medium print came to be a crucial part of popular conceptions of aesthetics As collectors publishers authors designers and directors of bibliophile societies reviews and small presses these book lovers became passionate and prolific interlocutors of the printed word in a uniquely artistic epoch Silverman analyzes subjects as diverse as the relationship between book collecting and aesthetic and cultural currents such as Symbolism the gendered nature of book collecting the increased collaboration between authors and illustrators and the marketing of fine books at international exhibits The New Bibliopolis is an important contribution to the study of book history French sociocultural history and fine and decorative arts

**Subject-index of the London Library, St. James's Square, London** London Library, Charles Theodore Hagberg Wright, Christopher James Purnell, 1923 [A Companion to Colette of Corbie](#), 2016-02-15 A Companion to Colette of Corbie presents a collection of essays offering new historical and religious perspectives on the life career and influences of this little studied fifteenth century saint Colette of Corbie a contemporary of Joan of Arc established an important reform movement in the Franciscan order founded numerous monasteries for women in Burgundy France and the Low Countries and had connections with high ranking Burgundian and French noble families Essays in this volume draw upon many relatively unknown primary sources and add significantly to the scholarship on this important religious figure Contributors are Anna Campbell Joan Mueller Andrea Pearson Jane Marie Pinzino Monique Somme Ludovic Viallet and Nancy Bradley Warren [Career Stories](#) Juliette M. Rogers, 2010-11 In Career Stories Juliette Rogers considers a body of largely unexamined novels from the Belle poque that defy the usual categories allowed the female protagonist of the period While most literary studies of the Belle poque 1880 1914 focus on the conventional housewife or harlot distinction for female protagonists the heroines investigated in Career Stories are professional lawyers doctors teachers writers archeologists and scientists In addition to the one well known woman writer from the Belle poque Colette this study will expand our knowledge of relatively unknown authors including Gabrielle Reval Marcelle Tinayre and Colette Yver who actively participated in contemporary debates on women s possible roles in the public domain and in professional careers during this period Career Stories seeks to understand early twentieth century France by examining novels written about professional women bourgeois and working class heroines and the particular dilemmas that they faced This book contributes a new facet to literary histories of the Belle poque a subgenre of the bildungsroman that flourished briefly during the first decade of the twentieth century in France Rogers terms this subgenre the female berufsroman or novel of women s professional development Career Stories will change the way we think about the Belle poque and the interwar period in French literary history because these women writers and their novels changed the direction

her male counterparts **The Athenaeum** ,1899 *The American Annual Cyclopedia and Register of Important Events of the Year ...* ,1897 Women Art Critics in Nineteenth-Century France Wendelin Guentner,2013-03-14 Over the past years studies have begun not only to identify the factors that impeded the full participation of women artists in French cultural life such as women s limited access to professional art education but also to bring to light the considerable artistic accomplishments of women occluded by historians for over a century A similar effort at historical revision has been under way for French women writers Works of fiction that enjoyed many editions in the nineteenth century receded from our field of vision for almost a century before being rediscovered and reissued during the last decades of the twentieth century Such efforts have resulted in scholarship that has helped revise the history of both artistic and literary expression in nineteenth century France Similarly many women in nineteenth century France had their art criticism published both in journal reviews and in book form often for decades in a number of the most influential venues of their day However it is perplexing that they remain almost totally invisible in histories of French culture *Women Art Critics in Nineteenth Century France Vanishing Acts* is the first sustained effort to bring these prolific and influential critics out from the shadows Although each of the chapters in this volume results from an interdisciplinary approach the fact that they are written by scholars in art history and in literature means that there will be inevitable differences in approach and methodology Thus we study the women s reception of specific artworks and aesthetic movements discuss intersections of aesthetics and politics in their essays and the literary styles and rhetorical strategies of individual critics explore the social conditions that allowed or impeded their successes and suggest reasons for their all but disappearance in the twentieth century In bringing to light for twenty first century readers the vanished writings of heretofore unrecognized or underrecognized women art critics the authors hope to contribute to the ongoing revision of women s role in cultural history The multifaceted approaches to word image studies modeled in this book and the many avenues for further research it identifies will inspire scholars in a number of disciplines to continue the work of reinscribing women in the history of cultural life **Dictionnaire de Bibliologie Catholique** Gustave Brunet,1860

Catalogue of a Collection of Early French Books in the Library of C. Fairfax Murray Charles Fairfax Murray,Hugh William Davies,1910 **Affective Education in Europe** Peter Lang,1998-08-01 Affective education can be defined as that part of the educational process which concerns itself with the attitudes feelings beliefs and emotions of students Central to the concept is the acknowledgement that student s feelings about themselves as learners and about their academic subjects can be at least as influential as their actual ability This collection features the work of contributors from countries such as Belgium Denmark Russia Germany Israel Spain and the UK It shows how the practical approach to affective education varies from nation to nation By analyzing the underlying theory this text sets out to bring the different approaches closer together to enable teachers across the continent to work towards a positive common ground *Women and the Book Trade in Sixteenth-Century France* Susan Broomhall,2018-11-07 Focusing on the vastly understudied area of how women participated

in the book trades not just as authors but also as patrons copyists illuminators publishers editors and readers *Women and the Book Trade in Sixteenth Century France* foregrounds contributions made by women during a period of profound transformation in the modes and understanding of publication Broomhall asks whether women's experiences as authors changed when manuscript circulation gave way to the printed book as a standard form of publication Innovatively she broadens the concept of publication to include methods of scribal publication through the circulation and presentation of manuscripts and expands notions of authorship to incorporate a wide sample group of female writers and publishing experiences She challenges the existing view that manuscript offered a safe means of semi public exposure for female authors and explores its continuing presence after the introduction of print The study introduces a wide and rich range of unexamined sources on early modern women using an extensive range of manuscripts and the entire corpus of women's printed texts in sixteenth century France Most of the original texts uncovered during the author's own extensive archival and bibliographical research have never been re published in modern French Most of the citations from them are here translated into English for the first time The work presents the only checklist of all known women's writings in printed texts from prefaces and laudatory verse to editions of prose and poetry between 1488 and 1599 *Women and the Book Trade in Sixteenth Century France* constitutes the most comprehensive assessment of women's contribution to contemporary publishing yet available Broomhall's innovative approach and her conclusions have relevance not only for book historians and French historians but for a broad range of scholars who work with other European literatures and histories as well as women's studies
