Ronald G. Ehrenberg, Charlotte V. Kuh, 2011-05-02 American colleges and universities simultaneously face large numbers of faculty retirements and expanding enrollments Budget constraints have led colleges and universities to substitute part time and full time non tenure track faculty for tenure track faculty and the demand for faculty members will likely be high in the decade ahead This heightened demand is coming at a time when the share of American college graduates who go on for PhD study is far below its historic high The declining interest of American students in doctoral programs is due to many factors including long completion times low completion rates the high cost of doctoral education and the decline in the share of faculty positions that are tenured or on the tenure track In short doctoral education is in crisis because the impediments are many and the rewards are few students often choose instead to enroll in professional programs that result in more marketable credentials In Doctoral Education and the Faculty of the Future scientists social scientists academic administrators and policy makers describe their efforts to increase and improve the supply of future faculty They cover topics ranging from increasing undergraduate interest in doctoral study to improving the doctoral experience and the participation of underrepresented groups in doctoral education Simple Strategies for Teaching Children at Risk, K-5 Melissa Stormont, Cathy Newman Thomas, 2013-12-03 Easy to implement strategies teachers can use right now While opinions differ on how to define students who are at risk most teachers agree that they are seeing more children hit roadblocks due to limited academic experiences challenging environments ADHD or behavioral problems Teachers often feel underprepared to connect with these students and improve their learning experiences In their latest work Melissa Stormont and Cathy Newman Thomas draw upon their field experiences within special education and psychology to offer K 5 teachers practical tools for building relationships with these children Readers will discover simple strategies for developing students academic aptitude and social behavior as well as how to Identify who is at risk for failure and why Build positive teacher student relationships and establish supportive groups among children Use data based decision making Provide students with

increased time to practice with feedback Incorporate technology supports Know when and how to involve professionals and families Moving well beyond mere theory teachers who are working amid reforms and sweeping cuts can implement these strategies immediately and make a real difference in children s lives Get started today This is a great book with which to start because it covers the basics the foundation that needs to be in place before the academics can take hold for a student at risk The ideas are easy to follow and could be implemented with little or in some cases no additional prep that s a bonus for an already busy teacher Barbara L Townsend Reading Specialist West Side Elementary School Elkhorn WI

Humanities, 1980 *Jacobs' Orchestra Monthly*, 1927 **How a City Learned to Improve Its Schools** Anthony S. Bryk, Sharon Greenberg, Albert Bertani, Penny Sebring, Steven E. Tozer, Timothy Knowles, 2023-04-18. A comprehensive analysis of the astonishing changes that elevated the Chicago public school system from one of the worst in the nation to one of the most improved. *How a City Learned to Improve Its Schools* tells the story of the extraordinary thirty-year school reform effort that changed the landscape of public education in Chicago. Acclaimed educational researcher Anthony S. Bryk joins five coauthors directly involved in Chicago's education reform efforts: Sharon Greenberg, Albert Bertani, Penny Sebring, Steven E. Tozer, and Timothy Knowles, to illuminate the many factors that led to this transformation of the Chicago Public Schools. Beginning in 1987, Bryk and colleagues lay out the civic context for reform, outlining the systemic challenges such as segregation, institutional racism, and income and resource disparities that reformers grappled with, as well as the social conflicts they faced. Next, they describe how fundamental changes occurred at every level of schooling: enhancing classroom instruction, organizing more engaged and effective local school communities, strengthening the preparation, recruitment, and support of teachers and school leaders, and sustaining an ambitious, evidence-based campaign to keep the public informed on the progress of key reform initiatives and the challenges still ahead. The power of this capacity building is validated by unprecedented increases in benchmarks such as graduation rates and college matriculation. This riveting account introduces key actors within the schools, city government, and business community, and the partnerships they forged. It also reveals the surprising yet essential role of Chicago's innovative information infrastructure in aligning disparate initiatives. In making clear how elements such as advocacy, civic capacity improvement, research, and strong democracy contributed to large-scale progress in the system's 600-plus schools, the book highlights the greater lessons that the Chicago story offers for system improvement overall.

Dignity and Defiance James Shultz, Melissa Draper, 2009-01-07. *Dignity and Defiance* is a powerful eyewitness account of Bolivia's decade-long rebellion against globalization imposed from abroad. Based on extensive interviews, this story comes alive with first-person accounts of a massive Enron/Shell oil spill from an elderly woman whose livelihood it threatens, of the young people who stood down a former dictator to take back control of their water, and of Bolivia's dramatic and successful challenge to the policies of the World Bank and the International Monetary Fund. Featuring a substantial introduction, a conclusion, and introductions to each of the chapters, this well-crafted mix of storytelling and

analysis is a rich portrait of people calling for global integration to be different than it has been more fair and more just
