

about oven cooking

Let's take a look at the oven

The oven door of your new Flair swings up—completely out of your way! And because the door swings up instead of out, you get maximum clearance for tall utensils on the surface units.

Oven is heated by two units, A and B. Two non-tipping, slide-out shelves are removed by pulling to "stop" position, then lifting up and out. Place in any of five shelf positions.

Your Custom Imperial RCIB-645 and the Custom DeLuxe RCDB-640-1 Models have an extra oven, also heated by two units. The shelves in the extra oven can also be placed in any of five positions.

Both units are fast-heating sealed Radianttube Units. The lower unit removes (just pull gently toward you) for easy cleaning of the oven bottom.
