mathematics John Hattie Laureate Professor Deputy Dean of MGSE Director of the Melbourne Education Research Institute
Melbourne Graduate School of Education YOU are the architect in the mathematics classroom When it comes to mathematics
lessons do you sometimes feel overly beholden to the required texts from which you teach Do you wish you could break the
mold but feel like you get conflicting guidance on the right things to do How often do you find yourself in the last minute
online scramble for a great task activity that will capture your students interest and align to your state standards In The
Mathematics Lesson Planning Handbook Grades 3-5 Your Blueprint for Building Cohesive Lessons you'll learn the
streamlined decision making processes that will help you plan the focused research based standards aligned lessons your
students need This daily reference offers practical guidance for when and how to pull together mathematics routines
resources and effective teaching techniques into a coherent and manageable set of lesson plans This resource will Lead

teachers through a process of lesson planning based on various learning objectives Set the stage for lesson planning using relatable vignettes Offer sample lesson plans for Grades 3 5 Create opportunities to reflect on each component of a mathematics lesson Suggest next steps for building a unit from the lessons Provide teachers the space and tools to create their own lesson plans going forward Based on years of classroom experience from seasoned mathematics educators this book brings together the just in time resources and practical advice you need to make lesson planning simple practical and doable From laying a solid foundation to choosing the right materials you ll feel confident structuring lessons that lead to high student achievement
