Baker,2000 Despite the billions of dollars spent on development assistance each year there is still very little known about the actual impact of projects on the poor There is broad evidence on the benefits of economic growth investments in human capital and the provision of safety nets for the poor But for a specific program or project in a given country is the intervention producing the intended benefits and what was the overall impact on the population Could the program or project be better designed to achieve the intended outcomes Are resources being spent efficiently These are the types of questions that can only be answered through an impact evaluation an approach which measures the outcomes of a program intervention in isolation of other possible factors This handbook seeks to provide project managers and policy analysts with the tools needed for evaluating project impact It is aimed at readers with a general knowledge of statistics For some of the more in depth statistical methods discussed the reader is referred to the technical literature on the topic Chapter

1 presents an overview of concepts and methods Chapter 2 discusses key steps and related issues to consider in implementation Chapter 3 illustrates various analytical techniques through a case study Chapter 4 includes a discussion of lessons learned from a rich set of good practice evaluations of poverty projects which have been reviewed for this handbook

District Leadership for Racial Equity Larkin Willis, Desiree Carver-Thomas, Linda Darling-Hammond, 2025-07-30 District Leadership for Racial Equity shows how transformative changes can occur across diverse districts when leaders take purposeful action in support of racial equity Developed as part of the Racial Equity Leadership Network initiative led by Southern Education Foundation this collection provides an opportunity for leaders to learn from district reform efforts that have reduced disparities and improved outcomes for students of color across unique contexts The cases presented acknowledge the challenges leaders face but they also demonstrate that change is possible when leaders build will and capacity to support successful student outcomes It examines the cases of racial equity leaders across four districts who have developed approaches that create new opportunities and outcomes for students who have been historically marginalized District Leadership for Racial Equity is an essential resource for emerging leaders leader practitioners and policymakers who are committed to reducing disparities and improving outcomes for all students especially those who are marginalized and underserved in our schools and society Additional resources for download are found online here <https://www.routledge.com/9781032938882> The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Uphill Both Ways Helen Johnson, 2019-03-19 Free public education was a grand experiment proposed in the mid 1800s by progressive politicians who believed it would increase the growth and development of an educated citizenry and strengthen the nation's democracy They were right Public education in the United States became the warp and weft of the nation's culture and economic success Today confidence in public education has been damaged by politicians and the financial interests that support them Now schools are dramatically underfunded while being blamed for a myriad of social and economic failures Drawing on her experiences as a student and a teacher Helen Johnson repudiates the attacks on public schools and sheds light on the remarkable successes borne from the United States education system

International Teacher Judgement Practices Val Klenowski, 2017-10-02 Human judgements underlie all assessments regarding the quality of students' understandings and such judgements are conceptually complex and elusive The study of the complexity of the judgement process is in its infancy but clearly warrants further critical investigation However what is

demonstrated from the wide variety of international teacher judgement practices presented in this volume is that teacher judgement requires a lot more than a set of standards criteria and annotated examples Understandings of assessment theory by pre service teachers through to more experienced teachers and opportunities for all to critically reflect and consider their judgements of student work are vital Teachers are struggling to maintain their interpretive freedom at the local professional level in contexts where central policies promote standardisation or regulation of judgement practice for accountability purposes This book was originally published as a special issue of Assessment in Education principles policy practice
