**Disability, Society and Assistive Technology** Bodil Ravneberg, Sylvia Söderström, 2017-03-27 The provision of assistive technology is an important individual and collective service of the welfare state The state plays a significant role towards linking users and products and the matching of devices and users is both a science and an art However many people feel it is stigmatising to use individually designed assistive technologies as they often in a subtle way convey discriminating barriers in society The major challenges of assistive technology are thus to reduce social exclusion and marginalisation and importantly to reduce individual risks and societal costs related to non use due to deficiencies in usability aesthetics and design of the technologies This groundbreaking book discusses the relationships among society disability and technology by using different empirical examples e g school everyday life to show why the combination of disability studies and STS studies science technology and society is a fruitful approach to understanding and meeting these challenges The book explores the significance of the technologies for users society and the field identifies challenges to designing adopting and using assistive technologies and points at theoretical challenges in research as well as professional challenges in assistive technology service provision The book also scrutinises the role of assistive technology devices as well as the organisational structure of the assistive technology market in relation to disabled people s lives This book will be valuable reading for students academics teachers and social educators interested in Disability Studies STS Studies Product Design Sociology Occupational Therapy and Physiotherapy as well as engineers working in the field of assistive technology

**Ethics in the University** James G. Speight, 2016-08-26 It is the continuous reports of unethical behavior in the form of data manipulation cheating plagiarism and other forms of unacceptable behavior that draw attention to the issues of misconduct The causes of misconduct are manifold whether it is the need to advance in a chosen discipline or to compete successfully for and obtain research funding Disappointingly individuals who are oriented to any form of dishonesty are individuals who had previously displayed little or no consideration for the feelings of others and are therefore more interested in themselves at the expense of the students and others recognizing them by any means necessary This ground breaking and honest examination of ethics in the university setting is unabashed in its descriptions of misconduct in the academic world The text is well furnished with numerous citations that point to academic misconduct and the final chapter deals with the means by which misconduct can be mitigated a strong reminder to everyone in the academic community that above board conduct must be part of our overall message of learning and part of the whole point of education in the first place A must have for academics and non academics alike this text is the second in a series of books on

ethics by James G Speight and it is useful to anyone in any industry who is interested in ethical behavior and how to navigate the sometimes murky depths of our professional lives *Dream Town* Laura Meckler, 2023-08-22 Winner of the Ohio Book Award Finalist of the Malott Prize for Recording Community Activism Can a group of well intentioned people fulfill the promise of racial integration in America In this searing and intimate examination of the ideals and realities of racial integration award winning Washington Post journalist Laura Meckler tells the story of a decades long pursuit in Shaker Heights Ohio and uncovers the roadblocks that have threatened progress time and again in housing in education and in the promise of shared community In the late 1950s Shaker Heights began groundbreaking work that would make it a national model for housing integration And beginning in the seventies it was known as a crown jewel in the national move to racially integrate schools The school district built a reputation for academic excellence and diversity serving as a model for how white and Black Americans can thrive together Meckler herself a product of Shaker Heights takes a deeper look into the place that shaped her investigating its complicated history and its ongoing challenges in order to untangle myth from truth She confronts an enduring and troubling question if Shaker Heights has worked so hard at racial equity why does a racial academic achievement gap persist In telling the stories of the Shakerites who have built and lived in this community Meckler asks What will it take to fulfill the promise of racial integration in America What compromises are people of all races willing to make What does success look like and has Shaker achieved it The result is a complex and masterfully reported portrait of a place that while never perfect has achieved more than most and a road map for communities that seek to do the same Includes black and white images [Colorado School Laws](#) Colorado, 2014 **DFID** Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2012-02-03 The DFID s transfer programmes deliver cash food and assets such as livestock directly to people living in poverty Transfers can be used to tackle a range of issues such as hunger and malnutrition or access to health and education services in a variety of contexts In 2010 11 the Department spent 192 million on social protection programmes which includes its transfer programmes The evidence heard suggests transfer programmes are effective in targeting aid and ensuring the money goes directly to the poorest and most vulnerable people It is therefore surprising that the use of transfer programmes has not increased The Department only plans to support transfer programmes in 17 of its 28 priority countries It does not have an overall strategy for the use of transfers and its decisions on where to support transfer programmes look reactive The decision as to whether or not to propose a transfer programme is taken by staff working in the country and it is not clear why there are extensive programmes in some countries and none in others The Department does not collect data on all the costs of the transfer programmes it supports and the Department is therefore unable to say whether it is lifting more people out of poverty for every pound spent on transfers compared to other programmes The Department s long term objective is for the governments of recipient countries to take on the responsibility of owning and funding transfers as part of a sustainable social security system However the Department has not been clear
