

5 Improvement Opportunities

5.1 Overview

There are many different sources of Improvement Opportunities within the solution. Improvement opportunities can be created manually from many different locations within the software (e.g. "Create New" button, Energy Uses, Meetings and Audits). Section 3.5 describes how to create a suggestion and notify the energy manager of a new potential Improvement Opportunity.

Another source of improvement opportunities is from pre-populated lists. The "Human Pre-Populated" source of improvement opportunities or "IO Playbook". The "IO Playbook" allows the Energy Manager to review a pre-defined list of energy saving strategies and create improvement opportunities to include in his energy management program and plans. Creating improvement opportunities from the IO playbook is described in section 5.3 and the configuration of the "IO Playbook" is described in section **Error! Reference source not found.** of the Administration chapter.

First we will look at how to create a "Human" or "Manual" improvement opportunity using the "Create New" button.
