

Check Electrical Cords (including those on lamps and extension cords) and Entertainment Equipment (TVs, DVD players, computers, etc.)

☐ Is any cord frayed, cracked, or otherwise damaged ?	YES: Replace all damaged cords or replace equipment.	<i>Damaged cords may have exposed live wires that can be shock and fire hazards.</i>
☐ Is any cord placed where it might be stepped on?	YES: Move all cords so they are out of the path of foot traffic.	<i>Cords placed in the path of traffic are tripping hazards. Cords can be damaged when stepped on, creating a fire or shock hazard.</i>
☐ Is any piece of furniture or rug resting on an electrical cord?	YES: Move cords or furniture so cords are not covered.	<i>Heavy weights or traffic can damage cords, crushing insulation or breaking wire strands, creating a fire or shock hazard.</i>
☐ Is any cord tightly wrapped around any object?	YES: Unwrap cords.	<i>Wrapped cords trap heat that normally escapes loose cords, which can lead to melting or weakening of insulation.</i>
☐ Are cords attached to anything (wall, baseboard, etc) with nails or wire staples ?	YES: Remove any nails and/or staples and replace damaged cords.	<i>Nails and staples can tear or crush the insulation or cut the wires inside, presenting a fire or shock hazard.</i>
☐ Are all extensions cords equipped with safety covers on the unused outlets?	NO: Use safety covers that fill the slots of every unused outlet.	<i>Children can be shocked or seriously burned when they play with uncovered outlets.</i>
☐ Is any extension cord being used on a permanent basis?	YES: Have new outlets installed where needed, or move appliance closer to an outlet.	<i>Extension cords are not as safe as permanent house wiring. Installed wiring can carry more current and is protected from accidental damage that could cause shock or fire.</i>
☐ Is all the entertainment equipment placed so that air can freely circulate around it?	NO: Move equipment so it has room to "breathe." Avoid enclosing equipment in a cabinet without proper openings and do not store papers around equipment.	<i>Blocking air flow to equipment can cause overheating and a possible fire hazard. (Refer to the owner's manual for guidance.)</i>
☐ Is all the equipment in a dry location, free of any source of water, including rain, leaks, and spills?	NO: Relocate equipment away from water source such as plants and aquariums.	<i>Mixing electricity and water can result in a serious shock or fire hazard.</i>

Hse Manual Trinidad

Patrick Vollmar

Hse Manual Trinidad:

Ignite the flame of optimism with Get Inspired by is motivational masterpiece, **Hse Manual Trinidad** . In a downloadable PDF format (PDF Size: *), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.
