Human Resource Planning David M. Schweiger, 2013-03-08 Due to escalating pressures from domestic and global competitors and changes in societal norms, laws and the economy during the past decade it has become clear to many executives that people are increasingly important to the success and survival of their companies but also increasingly more complex to manage. Moreover, it is likely that the complexity will increase even further in the Nineties as global and regional economies continue to emerge. In Europe entirely new political entities will contribute to complexity and pose difficult problems in a multi ethnic society. While creating many challenges these pressures are also creating excellent opportunities for human resource HR executives to make substantial contributions to their organizations. Whether such opportunities are realized however will depend upon how well these executives develop refine and leverage both their business and human resource management skills. This book which is a collaborative effort on the part of the editors of the Human Resource Planning journal and Gabler Publishing is intended for both line and HR executives interested in more effectively managing their employees. It is a compilation of selected cutting edge articles published in the journal during the past five years. It is divided into the following seven sections which represent important HR issues facing executives today and in the near future: Section 1 The Human Resource Function in Transition; Section 2 Strategic Human Resource Planning; Section 3 Mergers and Acquisitions; Section 4 Performance Appraisal and Performance Management; Section 5

Apart from this corporate practitioners also like to get some insight to the nitty gritty of HRP. Keeping all these factors in view the present book has been developed by the author considering the different aspects of HRP. The book aims to fulfill the need for MBA course on HRP and also for the practitioners as a reference manual to help successful HRP practice in organizations.
