prepare them for standardized tests using Just the Facts Physical Science This 128 page book covers concepts including properties and phases of matter atoms and elements motion and force air pressure sound light heat and energy and magnetism and electricity It includes activities that build science vocabulary and understanding such as crosswords word searches graphing creative writing vocabulary puzzles and analysis An answer key and a standards matrix are also included This book supports National Science Education Standards and aligns with state national and Canadian provincial standards

Atoms, Molecules & Elements Gr. 5-8 George Graybill, 2007-09-01 Young scientists will be thrilled to explore the invisible world of atoms molecules and elements Our resource makes the periodic table easier to understand Begin by answering what are atoms See how the atomic model is made up of electrons protons and neutrons Find out what a molecule is and how they differ from elements Then move on to compounds Find the elements that make up different compounds Get

comfortable with the periodic table by recognizing each element as part of a group Examine how patterns in the period table dictate how those elements react with others Finally explore the three important kinds of elements metals nonmetals and inert gases Aligned to the Next Generation Science Standards and written to Bloom s Taxonomy and STEAM initiatives
