Isis Dac Drivers Report:

The State of Social Progress of Islamic Societies Habib Tiliouine, Richard J. Estes, 2016-04-08 This handbook addresses the historical background of the Islamic world and reviews its basic past intellectual achievements It studies social progress of these regions and sub regions in comparison with other parts of the world It uses large data sets and well established statistically weighted Indexes in order to assess the nature and pace of the multiple facets of social change in member states of the Organization of Islamic Cooperation OIC The handbook extensively discusses the main challenges confronting the Islamic nations in the social economic political and ideological fields Though it is recognizable that social change in the Islamic World is generally positive it remains highly variable in pace and there is room to speed it up to the benefit of millions of deprived Muslim people Hence the book studies the different propositions and programs of action such as the United Nations Millennium Development Campaign and the OIC s Ten Year Programme of Action to present an integrated and comprehensive agenda of action to help improve the situation in the Islamic World

EU Security Policy and Crisis Management Nicole Koenig, 2016-03-10 This book explores European Union crisis management and draws implications for its role as an international security actor The success of EU crisis management has varied greatly and this book aims to identify the key factors that explain the differing degrees of coherence through a comparative analysis of its multidimensional crisis responses in Africa The empirical focus lies on three prominent EU crisis management cases namely Libya in 2011 Somalia in 2011 2012 and the Sahel in 2012 2013 It analyses the activities and interaction of EU institutional actors and member states with a focus on France the United Kingdom and Germany The book argues that the EU represents a rather unpredictable security actor whose multi level coherence is contingent on the congruence of domestic economic and electoral interests as well as national threat perceptions and the extent to which EU level coherence norms resonate with national norms on the use of force and modes of multilateral cooperation In sum this book offers systematic insight into EU crisis management and clarifies the conceptual and empirical boundaries of the comprehensive approach Finally the study of the micro foundations of coherence allows for policy relevant suggestions on the EU s future role as a security actor This book will be of much interest to students of EU policy European Security Peace and Conflict Studies African Politics and IR in general
