Isis Unveiled Part One Science:

Isis Unveiled H. P. Blavatsky, 2014-11-19 Volume Two Science THERE exists somewhere in this wide world an old Book so very old that our modern antiquarians might ponder over its pages an indefinite time and still not quite agree as to the nature of the fabric upon which it is written It is the only original copy now in existence The most ancient Hebrew document on occult learning the Siphra Dzeniouta was compiled from it and that at a time when the former was already considered in the light of a literary relic One of its illustrations represents the Divine Essence emanating from ADAM A conviction founded upon seventy thousand years of experience like a luminous arc proceeding to form a circle and then having attained the highest point of its circumference the ineffable Glory bends back again and returns to earth bringing a higher type of humanity in its vortex As it approaches nearer and nearer to our planet the Emanation becomes more and more shadowy until upon touching the ground it is as black as night A conviction founded upon seventy thousand years of experience as they allege has been entertained by hermetic philosophers of all periods that matter has in time become through sin more gross and dense than it was at man's first formation that at the beginning the human body was of a half ethereal nature and that before the fall mankind communed freely with the now unseen universes But since that time matter has become the formidable barrier between us and the world of spirits The oldest esoteric traditions also teach that before the mystic Adam many races of human beings lived and died out each giving place in its turn to another Were these precedent types more perfect Did any of them belong to the winged race of men mentioned by Plato in Phaedrus It is the special province of science to solve the problem The caves of France and the relics of the stone age afford a point at which to begin *Isis Unveiled* Helena Petrovna Blavatsky, 1910 *Isis Unveiled* Blavatsky, 1891 *Isis Unveiled* H. P. Blavatsky, 1994-04-25 HPB's first major work originally published in 1877 The most astounding compendium of occult facts and theories in Theosophical literature It proclaims the existence of mystery schools under the guardianship of men who are servants for truth It outlines a movement by the Guardians of the Ancient Wisdom to preserve and protect the ageless truths until in later times they would again become known for the spiritual benefit of all *The Subtle Body* Simon Cox, Simon Paul Cox, 2022 How does the soul relate to the body Through the ages innumerable religious and intellectual movements have proposed answers to this question Many have gravitated to the notion of the subtle body positing some sort of subtle entity that is neither soul nor body but some mixture of the two Simon Cox traces the history of this idea from the late Roman Empire to the present day touching on how philosophers wizards scholars occultists psychologists and mystics have engaged with the idea over the past two thousand years This study is an intellectual history of the subtle body concept from its origins in late antiquity through the Renaissance into the Euro American counterculture of the 1960s and 70s It begins with a prehistory of the idea rooted as it is in third century Neoplatonism It then proceeds to the signifier subtle body in its earliest English uses amongst the Cambridge Platonists After that it looks forward to those Orientalist fathers of Indology who in their earliest translations of

Sanskrit philosophy relied heavily on the Cambridge Platonist lexicon and thereby brought Indian philosophy into what had hitherto been a distinctly platonic discourse At this point the story takes a little reflexive stroll into the source of the author s own interest in this strange concept looking at Helena Blavatsky and the Theosophical import expression and popularization of the concept Cox then zeroes in on Aleister Crowley focusing on the subtle body in fin de si cle occultism Finally he turns to Carl Jung his colleague Frederic Spiegelberg and the popularization of the idea of the subtle body in the Euro American counterculture This book is for anyone interested in yogic somatic or energetic practices and will be very useful to scholars and area specialists who rely on this term in dealing with Hindu Daoist and Buddhist texts *Isis Unveiled* H.
