 Bhattacharjee, Nalini Aggarwal, Sr. Vijaya, Sara George, 2023-05-20 Bloomsbury An Activity based Integrated Course for LKG
 UKG and Classes 1 to 5 has been designed and formulated in accordance with the guidelines of National Education Policy
 NEP 2020 The series comprises a set of fourteen books two for each class and one per semester Semester books for LKG and
 UKG include English Mathematics and Environmental Science Semester books for Classes 1 and 2 include English
 Mathematics Environmental Science and General Knowledge Semester books for Classes 3 to 5 include English Mathematics
 Science Social Studies and General Knowledge The series is strictly aligned with the basic tenets of NEP 2020 Thus a lot of
 emphasis has been laid on promoting activity based and experiential approach to learning The series also seeks to develop
 the core twenty first century skills in learners which lie at the heart of NEP 2020 Besides great care has been taken to make
 learning a joyful experience for the learners All this will together lay a strong foundation at the primary level and lead to the
 holistic development of the learners at each level Some of the key features of the series are Key concepts supported with
 visual activities games and real life examples Carefully graded and comprehensive exercises to facilitate true evaluation
 Online support in the form of animated lessons interactive exercises topic wise videos and E books For Teachers only as per
 the requirement of the subject Teachers Resource Book to facilitate teaching ENGLISH The content for English is a perfect
 blend of the best of both worlds past and present The selections are based on the learners interests and therefore will not
 only easily arrest their attention but also facilitate longer retention The graded exercises lay appropriate emphasis on
 learning the four basic language skills of Listening Speaking Reading and Writing Grammar Section in each book offers
 simple and clear conceptual understanding MATHEMATICS The Mathematical concepts have been dealt with in an
 interesting and comprehensive manner This way even an average child will have no difficulty in grasping the fundamentals
 The series follows a graded and spiral approach keeping in mind the age and level of understanding of the learner
 ENVIRONMENTAL STUDIES NEP 2020 lays emphasis on promoting the spirit of analysis and questioning because it has
 been increasingly felt that children learn more through talking observing and discussing with others This approach has been
 adopted in EVS content SCIENCE The content in this section emphasises meaningful learning of science for the overall
 development of learners It focuses on helping children understand their natural environment and correlate science with their

everyday experiences in an interesting and comprehensive manner SOCIAL STUDIES A totally new and innovative approach to teaching social studies has been adopted in this section The lessons enhance the learners life skills and equip them with a high civic sense and arm them with an ability to face the challenges in life with confidence and as responsible citizens GENERAL KNOWLEDGE The main objective of the General Knowledge section is to create a sense of wonder in the learners and arouse in them a desire to learn and find out more about the world around them We look forward for feedback and constructive criticism from the students teachers and parents which will be given due consideration in the future reprints and editions of the books The Publisher Ebook Teaching Mathematics for the 21st Century Linda Huetinck,Sara N. Munshin,2008 This third edition of Teaching Mathematics for the 21st Century continues to help teachers let the secret out to open up to their students the wonderful discoveries and challenges of the pattern making and problem solving aspects of a fascinating subject mathematics The rationale remains the same to enable prospective and current teachers to access and use tools and strategies to effectively teach mathematics to contemporary students Changing demographics knowledge of how people learn and technology all impact the way we educate our young people This edition incorporates lessons and strategies from programs that have proven success in many types of classrooms Many of these examples help students connect mathematics to real life situations and communicate their understanding of the underlying concepts Although technology is constantly being upgraded ways to increase student motivation through its application remains a goal For example since applets can enhance a lesson whether the teacher uses a computer projector a smart board or has students work individually on computers we have identified several sources of mathematics applets that can be correlated to various lessons Research citations and summaries have been updated to reflect current information on teaching and learning For future teachers Mindset Mathematics: Visualizing and Investigating Big Ideas, Grade 3 Jo Boaler,Jen Munson,Cathy Williams,2018-07-12 Engage students in mathematics using growth mindset techniques The most challenging parts of teaching mathematics are engaging students and helping them understand the connections between mathematics concepts In this volume you ll find a collection of low floor high ceiling tasks that will help you do just that by looking at the big ideas at the third grade level through visualization play and investigation During their work with tens of thousands of teachers authors Jo Boaler Jen Munson and Cathy Williams heard the same message that they want to incorporate more brain science into their math instruction but they need guidance in the techniques that work best to get across the concepts they needed to teach So the authors designed Mindset Mathematics around the principle of active student engagement with tasks that reflect the latest brain science on learning Open creative and visual math tasks have been shown to improve student test scores and more importantly change their relationship with mathematics and start believing in their own potential The tasks in Mindset Mathematics reflect the lessons from brain science that There is no such thing as a math person anyone can learn mathematics to high levels Mistakes struggle and challenge are the most important times for brain growth Speed is
