Modoc True Story Of The Greatest Elephant That Ever Lived:

Modoc Ralph Helfer, 2009-10-13 Once I started this incomparable story I couldn't put it down and I cannot get it out of my mind nor will I ever. The message of what can be accomplished by training through affection and joy will thrill all animal lovers. Betty White: A captivating true story of loyalty, friendship, and high adventure that spans several decades and three continents. Modoc is one of the most remarkable true stories ever told, perfect for fans of *The Zookeeper's Wife* or *Water for Elephants*. Raised together in a small German circus town, a boy and an elephant formed a bond that would last their entire lives and would be tested time and again through a near-fatal shipwreck in the Indian Ocean, an apprenticeship with the legendary Mahout elephant trainers in the Indian teak forests, and their eventual rise to circus stardom in 1940s New York City. As the *African Sun Times* put it: Modoc is heartwarming, probably the greatest love story ever told. **Modoc** Ralph Helfer, 1997 The greatest elephant story ever told, re-created by Modoc's owner during the last twenty years of her seventy-eight year life. The story spans eight decades and three continents. **Parrot's Lament, The and Other True Tales of**

Animal Intrigue, Intelligent Eugene Linden, 2000-08-01 A gorilla shrewdly sells back a missing key chain to the highest bidder. An orangutan picks a lock to let himself out of his zoo enclosure, and two elephants adopt a tag team strategy to keep their handlers from putting them back into theirs. In *The Parrot's Lament*, noted environmentalist Eugene Linden offers more than one hundred true anecdotes about animal acts of cooperation, heroism, escape, even tales of deception or manipulation of human beings. Drawing on the first-person experiences of veterinarians, field biologists, researchers, and trainers, Linden has compiled a warmly entertaining and powerfully persuasive argument for animal consciousness that while not human, far exceeds what humans usually grant animals. Scientifically sound and emotionally compelling, *The Parrot's Lament* contains remarkable stories that are sure to resonate with animal lovers, turning skeptics everywhere into believers. Phyllis Thomas, 2012-06-19 Tired of the same old tourist traps? Whether you're a visitor or a local looking for something different, let *Indiana Off the Beaten Path* show you the Hoosier State you never knew existed. Check out the world's largest ball of paint in Alexandria, crunch through dozens of tasty flavored pickles at Sechler's Pickle Factory in St. Joe, or get up close and personal with more than a dozen vintage and military aircraft at the Hoosier Air Museum near Auburn. So if you've been there, done that, one too many times, get off the main road and venture *Off the Beaten Path*. *Literary Animal Studies in the Anthropocene*

Jiang Lifu, 2022-08-08 In 2000, the Nobel Prize-winning chemist Paul J. Crutzen and marine science specialist Eugene Stoermer coined the term Anthropocene based on the assumption that the global impacts of human activities during the last 300 years are so significant and far-reaching in scale that they lead to a new geological epoch. The Anthropocene is adopted to signify the epoch subsequent to the Holocene in which human actions are shaping the planet so profoundly that they are now acting as a geological force. In this era, human activity is the dominant influence on the environment and all lives on earth. This is the age we are currently living in, though debates about precisely when it began

continue to rage The term has not as yet officially accepted within the field of geology however as a frame for understanding a period of geological time marked by the significant impact of human activity on the planet the Anthropocene has extraordinary potential and it is a unique term simultaneously oriented to the past present and future Human Animal viii As Morten T nnessen Kristin Armstrong Oma argued no matter what one thinks about the Anthropocene the notion radically changes how we look at nature and mankind viii [Indiana Off the Beaten Path®](#), 9th Phyllis Thomas,2007-07-15
