Students need to know how writers and speakers' choices are shaped by elements of the rhetorical situation including audience, occasion and purpose. In *Teaching Arguments: Rhetorical Comprehension, Critique and Response* Jennifer Fletcher provides teachers with engaging classroom activities, writing prompts, graphic organizers and student samples to help students at all levels read, write, listen, speak and think rhetorically. Fletcher believes that with appropriate scaffolding and encouragement, all students can learn a rhetorical approach to argument and gain access to rigorous academic content. *Teaching Arguments* opens the door and helps them pay closer attention to the acts of meaning around them, to notice persuasive strategies that might not be apparent at first glance. When we analyze and develop arguments, we have to consider more than just the printed words on the page. We have to evaluate multiple perspectives, the tension between belief and doubt, the interplay of reason, character and emotion, the dynamics of occasion, audience and purpose, and how our own identities shape what we read and write. Rhetoric teaches us how to do these things. *Teaching Arguments* will help students learn to move beyond a superficial response to texts so they can analyze and craft sophisticated persuasive arguments, a major cornerstone for being not just college and career ready but ready for the challenges of the world. **Annual Report of the Regents of the University, to the Legislature of the State of New-York** University of the State of New York. Michael Bloomberg became mayor of New York just four months after the 9/11 terrorist destruction of the World Trade Center, and he led the rebuilding of a physically and emotionally devastated city so well that within two years the city had budget surpluses. Weikart reveals how state and federal governments constrained Bloomberg's efforts to set municipal policy and implement his strategic goals in the areas of homelessness, low income housing, poverty, education.
