Math Instruction for Students with Learning Problems

Susan Perry Gurganus,2017-02-24 Math Instruction for Students with Learning Problems Second Edition provides a research based approach to mathematics instruction designed to build confidence and competence in pre and in service PreK 12 teachers This core textbook addresses teacher and student attitudes toward mathematics as well as language issues specific mathematics disabilities prior experiences and cognitive and metacognitive factors The material is rich with opportunities for class activities and field extensions and the second edition has been fully updated to reference both NCTM and CCSSM standards throughout the text and includes an entirely new chapter on measurement and data analysis

Handbook of Digital Resources in Mathematics Education Birgit Pepin,Ghislaine Gueudet,Jeffrey Choppin,2024-06-21 This handbook presents the state of the art scholarship on theoretical frames mathematical content learning environments pedagogic practices teacher professional learning and policy issues related to the development and use of digital resources in mathematics education With the advent of more and more open access digital resources teachers choose from the web what they see fit for their classroom students choose in the moment what they need for their projects and learning paths However educators and students often find it difficult to choose from the abundance of materials on offer as they are uncertain about their quality and beneficial use It is clear that at a time of bouleversement of the teaching learning processes it is crucial to understand the quality and the potentially transformative aspects of digital resources This book provides comprehensive analyses of and insights into the transformative aspects of digital resources

Succeeding with Inquiry in Science and Math Classrooms Jeff C. Marshall,2013 This book shows K 12 STEM teachers how to maximize their effectiveness with students by shifting to an inquiry based instructional approach and creating a rigorous engaging learning environment

EdPsych Modules Cheryl Cisero Durwin,Marla Reese-Weber,2019-12-04 EdPsych Modules uses an innovative modular approach and case studies based on real life classroom situations to address the challenge of effectively connecting theory and research to practice Succinct stand alone modules are organized into themed units and offer instructors the flexibility to tailor the book s contents to the needs of their course The units begin with a set of case studies written for early childhood elementary middle and secondary classrooms providing students with direct insight into the dynamics influencing the future

students they plan to teach All 25 modules highlight diversity emphasizing how psychological factors adapt and change based on external influences such as sex gender race language disability status and socioeconomic background The Fourth Edition includes over three hundred new references across all 25 modules and expanded coverage of diversity in new diversity related research This title is accompanied by a complete teaching and learning package *Upper Elementary Math Lessons* Anna O. Graeber, Linda Valli, Kristie Jones Newton, 2011-07-16 Engaging students in worthwhile learning requires more than a knowledge of underlying principles of good teaching It demands considerable practice as well as images of what good teaching in particular situations and for particular purposes might look like This volume provides these images These cases were written from authentic unrehearsed lessons taught by upper elementary classroom teachers to diverse groups of real students in intact classrooms Each lesson contains elements of sound instructional practice from which both preservice and in service teachers can benefit Cases are not meant to be ideal but rather to evoke ways of seeing and thinking about good classroom instruction for all learners Accompanied by analytic commentaries from experts representing a particular perspective such as special education and ESOL these unrehearsed cases are written with the understanding that teaching is complex and multi dimensional The cases are drawn from a four year study of 4th and 5th grade mathematics instruction of culturally diverse classrooms with relatively high rates of students from low income families **The Discovery of Teaching** Cole Speicher Brembeck, 1962 **Cooperative Work Groups** Scott M. Mandel, 2003-06-11 Prepare your students for the modern day workplace by implementing cooperative work groups in the classroom In today's political climate where the value and success of the educational process is directly linked to publishable test scores cooperative learning experiences have been either de emphasized or ignored This has created a learning environment diametrically opposite to the requirements of the real work world leaving our students unprepared for the future challenges they will face Mandel outlines how educators can design meaningful learning experiences that will address standards and utilize modern day cooperative learning brain research and the Internet to effectively develop a student's ability to thrive in the twenty first century's workforce Key features include Benefits of cooperative work groups and how students accomplish tasks in groups Application of brain research in the classroom to maximize learning Integration of technology into the curriculum even when computer accessibility is extremely limited Classroom tested ready to use unit plans Modification strategies for learning disabled and English Language Learners Reproducible forms Multiple Intelligence assessments group and individual assessment strategies and grading rubrics Numerous references and Web resources for further support including the author's weekly updated Web site The cooperative learning techniques put forth in Cooperative Work Groups are designed to emphasize the students best learning styles and integrate the newest technology into their work ensuring their success as individuals working together in groups on long term projects in today's work society Enhancing Adult Motivation to Learn Raymond J.
