**Experiences in the Biocontinuum** Richard L. Summers, 2020-08-10 The central question in the biological sciences for the past 100 years has concerned an understanding of how living systems differ from other general physical phenomena and what makes these systems unique With new developments in the fields of nonequilibrium thermodynamics systems theory chaos and information theory over the past few decades there has been growing interest in finally answering the question first posed by Erwin Schrödinger in the 1940s concerning the true scientific nature of living systems Similarly there is also increasing interest within the biologic community for a more holistic and non reductionist methodology The approach followed in this book builds on a foundation of information theory and semiotics while integrating basic thermodynamic considerations and systems theory to form a singular unifying concept that is proposed to be the essential process of living systems However the premise presented is much more than simply the exposition of a new hypothesis This book describes the logical progression of thought incorporating a diverse array of established scientific ideas that were used in the conceptualization of a dynamic mathematical framework that can be employed as a novel analytic means for the study of living systems and their fundamental processes

**Jesus, History and Mount Darwin** Rick Kennedy, 2008-10-30 Written in the genre of Henry David Thoreau's travel thinking essays Jesus History and Mount Darwin An Academic Excursion is the story of a three day climb into the Evolution Range of the High Sierra Mountains of California Mount Darwin stands among other near 14 000 foot high mountains that are named after promoters of religious versions of evolutionary thinking Rick Kennedy a history professor from a small college uses the climb as an opportunity to think about general education and how both the natural history of evolution and the ancient history of Jesus can find a home in the Aristotelian diversity of university methods Kennedy offers the academic foundations for the credibility and reliability of accounts of Jesus in the New Testament while pointing out that these foundations have the same weaknesses and strengths that ancient history has in general Natural history Kennedy points out has a different set of strengths and weaknesses from ancient history Overall the book reminds students and professors of the wisdom in being humble

**After Leo Strauss** Tucker Landy, 2014-05-29 Proposes a post Straussian reading of Plato to advance a reconciliation of ancient and modern theories of natural right Few thinkers of the twentieth century studied the fundamental questions of ethics and politics or penetrated further into the philosophical sources of the moral relativism of our times more deeply than Leo Strauss After Leo Strauss is not yet another attempt to explicate critique or defend Strauss Instead it encourages us to look in new directions and to escape certain aspects of Strauss's powerful influence in order to revisit classic texts and make our own judgments about what those texts might mean Tucker Landy proposes a post Straussian reading of the Platonic dialogues that is non esoteric yet respectful of their subtle dramatic pedagogic form and urges us in a spirit of Socratic humility to reexamine ancient and modern theories

of natural right to seek possible grounds for reconciliation between them Landy puts forth a Socratic theory of democratic liberalism as an example of such reconciliation This book is a breath of fresh air for people like me who were influenced by Strauss early in their philosophic careers but who refuse to dismiss metaphysics and cosmology who are wary of the potentially narrowing effects of political philosophy and who are open in their philosophical eros to the possible truth of revelation and the wisdom of the poets Tucker Landy gives us a new beginning a Socrates made young and beautiful Peter Kalkavage author of *The Logic of Desire An Introduction to Hegel's Phenomenology of Spirit* *The Publishers Weekly*, 1907

**Watching the World Die** Mike Bogue, 2023-10-26 During the 1980s popular fear of World War III spurred moviemakers to produce dozens of nuclear threat films Categories ranged from monster movies to post apocalyptic adventures to realistic depictions of nuclear war and its immediate aftermath Coverage of atomic angst films isn't new but this is the first book to solely analyze 1980s nuclear threat movies as a group Entries range from classics such as *The Day After* and *WarGames* to obscurities such as *Desert Warrior* and *Massive Retaliation* Chronological coverage of the 121 films released between 1980 and 1990 includes production details chapter notes and critical commentaries
