The Memory of Fire Trilogy Eduardo Galeano, 2014-04-29 All three books in the American Book Award winning

Memory of Fire Trilogy available in a single volume for the first time Eduardo Galeano's Memory of Fire Trilogy defies categorization or perhaps creates its own It is a passionate razor sharp lyrical history of North and South America from the birth of the continent's indigenous peoples through the end of the twentieth century The three volumes form a haunting and dizzying whole that resurrects the lives of Indians conquistadors slaves revolutionaries poets and more The first book Genesis pays homage to the many origin stories of the tribes of the Americas and paints a verdant portrait of life in the New World through the age of the conquistadors The second book Faces and Masks spans the two centuries between the years 1700 and 1900 in which colonial powers plundered their newfound territories ultimately giving way to a rising tide of dictators And in the final installment Century of the Wind Galeano brings his story into the twentieth century in which a fractured continent enters the modern age as popular revolts blaze from North to South This celebrated series is a landmark of contemporary Latin American writing and a brilliant document of culture [Nazi Occultism](#) Stéphane François,2023-03-14

Nazi Occultism provides a serious scholarly study of a topic that is often marred by sensationalism and misinformation The Morning of the Magicians by Pauwels and Bergier 1960 gave rise to the idea that a secret society with wide powers the Thule society was the hidden and ignored centre of Nazism The influence of this very real small group is however only a fantasy a myth The author a historian specializing in neo Nazism looks back on this speculative construction its origins its ideological tinkering and the practices which have succeeded in forming a sort of radical and sulphurous counterculture which has created a fascination with esotericism and Nazism and the SS To better understand it he also paints a portrait of some of the authors who contributed to this extremist subculture such as the Italian esotericist Julius Evola the Argentine anthropologist Jacques Marie de Mahieu Chilean neo Nazi Miguel Serrano and the writer Jean Paul Bourre This book will appeal to scholars researchers and activists as well as general readers with an interest in the history of Nazism and the occult *La era del*

The Globalization of Surveillance Armand Mattelart, 2010-10-11 Video surveillance public records fingerprints hidden microphones RFID chips in contemporary societies the intrusive techniques of surveillance used in daily life have increased dramatically The war against terror has only exacerbated this trend creating a world that is closer than one might have imagined to that envisaged by George Orwell in 1984 How have we reached this situation Why have democratic societies accepted that their rights and freedoms should be taken away a little at a time by increasingly sophisticated mechanisms of surveillance From the anthropometry of the 19th Century to the Patriot Act through an analysis of military theory and the Echelon Project Armand Mattelart constructs a genealogy of this new power of control and examines its globalising dynamic This book provides an essential wake up call at a time when democratic societies are becoming less and less vigilant against the dangers of proliferating systems of surveillance

Faces and Masks Eduardo Galeano, 2014-04-29 A book as fascinating as the history it relates Galeano is a satirist realist and historian Los Angeles Times For centuries Europe's imperial powers brutally exploited the peoples and resources of the New World While soldiers of fortune marched across continents in search of El Dorado white settlers established plantations and trading posts along the coasts altering the land and bringing disease and slavery with them In the midst of a bloody collision of civilizations the West has birthed new societies out of the old In the second book of his Memory of Fire trilogy Eduardo Galeano forges a new understanding of the Americas history retold from a diverse collection of viewpoints Spanning the end of empire and the age of revolutions Faces and Masks brilliantly collects the strands of the past into an iridescent work of literature

Las runas y el sendero de la iniciación Juan Ricardo Céspedes, 2016-07-11 La intención de este libro es abordar el estudio y praxis de los símbolos mágicos rítmicos desde un punto de vista gnóstico e iniciático Específicamente se requiere de la gnosis propia de alguien que posee la actitud de un Kshatriya del guerrero mago iniciado que se rige por valores como el valor y el honor en medio de un proceso de despertar y mutación constantes En este libro se aborda el conocimiento y práctica rítmica con el enfoque de una ciencia esotérica que paulatinamente produce una transformación interior y trascendental de manera similar a lo que acontece con la alquimia y el
