

Fairy Tale News Report Reader's Theatre

Anchor: Good afternoon and welcome to AM 615, all news, all the time. We begin our programming this afternoon with some breaking news from The Land of Far Far Away. It seems Mr. Humpty Dumpty has had a terrible fall. We send it over to our man in the field, Beestink Jack.

Reporter: Thank you Sandy. I'm here by the well near the castle where at 10:15 this morning, Mr. Dumpty endured this terrible fall. According to sources, Mr. Dumpty was out for his early morning walking when he was overcome by a terrible sneeze that sent him toppling forward. We are joined now by one of the King's horses who was first to arrive on the scene. Good Afternoon.

Subject: Good afternoon Jack.

Reporter: Can you please tell us the state of Humpty Dumpty at this time?

Humpty Dumpty: I'm horrible - obviously!

Subject: Well, all the King's Horses and his men have been working tirelessly to put this shell of a man back together, but it has turned out to be difficult. We fear we may not be able to restore him to his former state.

Humpty Dumpty: I know I should have stayed home today!

King's Man: Humpty! Stop moving! I'm trying to keep your shell from cracking more!

Reporter: Any advice for our listeners?

Subject: Take your allergy medication. We fear that with allergy season starting, there could be many more dangerous falls. Be cautious, don't let that sneeze be your last.

Reporter: And there you have it. From the horses' mouths. Back to you Sandy.

Mediated Deviance and Social Otherness Kylo-Patrick R. Hart,2009-01-14 If in fact Lizzie Borden took an axe and gave her step mother forty whacks why from a representational standpoint did her stepmother deserve it If older gay men in Internet chat rooms regularly provide much needed acceptance and advice to younger gay males during the coming out process how is it that they continually reinforce racist ideologies and powerless subjectivities while doing so What sorts of media images are commonly presented of individuals and groups that are regarded as being deviant in society and whose interests do they ultimately serve The answers to these important questions and many others are provided in the pages of Mediated Deviance and Social Otherness Interrogating Influential

Representations which explores provocative representations of deviance in various media forms including books films musical offerings news accounts television programs and Internet sites and their substantial cultural political and social consequences for the lived realities of individuals of different backgrounds and lifestyles The eye opening chapters of this book enable readers to more fully realize the regularity with which media representations continuously contribute in powerful ways to the formation and perpetuation of influential social constructions of deviance and otherness as they pertain to delinquents criminals and individuals of all ages classes genders races sexual orientations and health disability statuses Mediated Deviance and Social Otherness Interrogating Influential Representations is a thought provoking anthology that offers fresh insight and new approaches to critically analyzing social constructions of deviancy across a variety of media forms While scholars have long examined the relationship between media and deviancy this collection of essays features a range of theoretical perspectives through which to investigate deviancy and its various interpretations in original ways In the process it deepens our understanding of how deviancy has been constructed across time and in differing social cultural milieus The essays in this anthology reflect the diverse disciplines of their contributing scholars At the same time the anthology does not waver from its clear focus on deviancy lending it substantial coherence and readability The book is expertly structured and edited Each of the essays draws inspiration from a refreshing variety of sources and fields of study The anthology is accordingly divided into six distinct yet related sections that mark its coherence and readability Simultaneously the essays within each section are quite different from one another allowing the reader to make thought provoking connections between representations of deviancy both within sections and among them Mediated Deviance and Social Otherness Interrogating Influential Representations is an important text Considering the growth of new media forms its investigation of both old and new media in relation to social constructions of deviancy represents a timely and topical contribution to the field of media and cultural studies Given its breadth and scope the anthology represents a highly significant scholarly contribution that will greatly benefit scholars students and interested individuals of all levels It offers eye opening insights to anyone with an interest in cultural studies disease and disability studies film and television studies LGBT studies criminal justice sociology and related fields

Brief Reviewer Bio Metasebia Woldemariam Ph D is an associate professor of communication and media studies at Plymouth State University who specializes in media representations of deviancy and otherness Mediated Deviance and Social Otherness Interrogating Influential Representations is an erudite collection offering critical and cultural analysis of media representations within various media forms including journalism film documentary television fiction music and the Internet The book is divided into six sections that highlight the categories of deviance and otherness the contributors emphasize

- 1 Age
- 2 Crime and Criminals
- 3 Disease and Disability
- 4 Gender Race and Class
- 5 Sexual Orientation
- 6 Other Forms of Deviance

which include masochism carnival spectacles and cultures of violence While some chapters feature links to topics common to media studies such as the Motion Picture Production Code

what is powerful about the collection is how varied the interpretive standpoints of the contributors are. An example of one such unique interpretive perspective comes from Linda K Fuller whose chapter examines the sexual political aspects of African AIDS related films based on her work in West Africa with a sexologist collating and critiquing appropriate media for Life Skills. This interpretive variety inspires novel examination of media representations through the originality of varied genres of analysis: the collection offers analysis of classic as well as popular literature, popular as well as veiled news media, award winning as well as obscure television series and outlaw country music as well as rap music. Because media is so broadly interpreted within the collection, readers are encouraged to view mass media as a crucial cultural landscape for meaning making. Each contributor offers a timely perspective about past or contemporary society through the analysis of unique media genres and artifacts or even through analysis of representations in multiple media forms. For example, Annette Holba examines multiple forms of the media representations of a less emphasized person in the Lizzie Borden case: Borden's stepmother. Editor Kylo Patrick R Hart's own contribution examines multiple media representations of the visible physical signs of AIDS before focusing on their representation in two particularly noteworthy film melodramas. Rather than focusing on stereotypical categories of deviance and otherness, the contributors focus on less commonly acknowledged representations or challenge commonly acknowledged understandings of media. This is evident through Christopher J Prez's ethnographic observation of instant messages from Gay.com participants which dispels the notion that such online communities allow for positive expressions of gay identity. Through its broad interpretation of media, the collection offers an ample array of less commonly acknowledged media genres as evident in Margaret Weigel's class analysis of the electric bulb advertising sign spectaculars in Manhattan from 1892 to 1917. Wendy Korwin's visual analysis of a set of four image plates used within prescriptive literature and Amanda Klein's cinematic comparison of portrayed deviance in the 1950s juvenile delinquency teenpic and the 1990s ghetto action film *Incorporated* also are unique perspectives on traditional news media representations as in Thomas Grochowski's interpretation of celebrity defendant perspectives of O J Simpson. Occasionally common themes thread particular chapters together, allowing opportunities to understand how critics view the same or similar media differently. For example, David Sealy and Georges Claude Guilbert as well as Valentin Locoge offer analysis of the HBO television series *Oz*. Additionally, contemporary moral dilemmas and societal issues are covered as they appear in various media representations as when Barbara Barnett's discussion of journalistic representations of maternal infanticide and perfection appear alongside Robert Goff's analysis of the textured view of abortion provided by the film *Vera Drake*. Hart's collection is important to expanding the scholarly understanding of media representations because it provokes thinking about what makes media mean so much to humans in particular social, cultural, historical, and even technological contexts. The issue of the detrimental effects of shared notions of deviance and social otherness is evident in chapters that highlight original perspectives useful for either scholarly analysis or challenging graduate level classroom discussions. Also because the

collection includes literary analysis it could serve well those with interest in literary criticism ELESIA RUMINSKI Ph D is an assistant professor of English at Indiana University of Pennsylvania with experience teaching mass communication film studies and visual communication *The Ghost in the Constitution* Joan Ramon Resina, 2017 A book that offers new directions in the study of memory in Spain written by one of the world's leading scholars of contemporary Spanish culture

Insight Out Vann Joines, Ph.D., 2022-11-28 Why do individuals and couples have such a difficult time understanding one another and getting along Insight Out provides both the answer and the solution 1 We have different Personality Adaptations 2 We live in different worlds 3 We think there is only one reality and 4 We often hear other s

requests as criticism of ourselves By understanding how we adapt in childhood to survive traumatic experiences and meet the expectations of those around us we can discover how to change those adaptations now in order to create the life and relationships we most desire Insight Out allows readers to discover their personality type and those of their family members and significant others and its impact on their relationships We are born helpless and powerless into a vast mysterious and often threatening world Struggling to survive we grope for ways to adapt to our surroundings But with little knowledge and less power to manage our environment we are likely to come up with primitive imperfect responses to life's stresses Our childhood strategies disguised as adult behavior trail us throughout our lives snowballing into an amalgam of unhappy relationships short circuited careers and unfulfilled dreams These tactics don't work very well in adult life but they are often all we know Unless we learn more effective strategies we're headed for trouble Insight Out is about developing both an awareness of our maladaptive strategies and the emotional intelligence to change them Insight Out offers a step by step program for changing our ineffective operating strategies into ones that allow us to become who we were meant to be Insight Out shows readers that they already have everything they need inside Now finally with a book that merges clear theory with effective tools readers will be able to cultivate their strengths in ways that change their lives on the outside There are six core personality adaptations three that were developed for survival and three that were developed to perform in a way that met our caretakers expectations Each personality adaptation has its own unique area feeling thinking or behavior for making contact with the world an area that produces the most growth and change and an area where individuals have the greatest defenses Knowing this information allows us to relate to others in a way that quickly establishes rapport produces mutual problem solving and avoids getting trapped in the other person's defenses There is also a section on how to use a questionnaire that Dr Joines has developed to access the adaptations use the resulting profiles to determine what a couple's relationship will look like and use that information to make the positive changes they desire Insight Out looks in depth at how and why the adaptations develop how they relate to other people and to problem solving and the positive and negative behaviors of each adaptation The book is packed with engaging examples and vignettes as well as self help exercises to assist readers in making desired changes It makes explicit how the way we have adapted affects how we experience the world and perform in it The insights available in this book enable us to know ourselves fully to become the best that we can be and to transform our relationships Few books give readers so much information to understand themselves and those they love This book is a relationship treasure Ellyn Bader Ph D Co Director of the Couples Institute *Performance and the Disney Theme Park Experience* Jennifer A. Kokai, Tom Robson, 2019-11-27 This book addresses Disney parks using performance theory Few to no scholars have done this to date an enormous oversight given the Disney parks similarities to immersive theatre interpolation of guests and dramaturgical construction of attractions Most scholars and critics deny agency to the tourist in their engagement with the Disney theme park experience The vast body of research and journalism on the Disney Imagineers

the designers and storytellers who construct the park experience leads to the misconception that these exceptional artists puppeteer every aspect of the guest's experience. Contrary to this assumption, Disney park guests find a range of possible reading strategies when they enter the space. Certainly, Disney presents a primary reading but generations of critical theory have established the variety of reading strategies that interpreters can employ to read against the text. This volume of twelve essays re-centers the park experience around its protagonist, the tourist.
