**Responsibility and Responsibilisation in Education** Christine Halse, Catherine Hartung, Jan Wright, 2019-10-23 Concerns with the nature of and relationship between responsibility and responsabilisation pervade contemporary social political and moral life This book turns the analytical lens on the ways in which responsibility and responsabilisation operate in diverse educational settings and relationships and social policy and geographical contexts in the USA Europe the UK New Zealand and Australia Scholars have sought to explain the genealogy and the m lrange of rationalities technologies bio politics and modes of governmentality that bring responsibility and responsabilisation into being how they act on and are taken up by individuals groups and organisations and the risks and possibilities they create and delimit for individuals social collectives and their freedoms Contributors to this collection have diverse views and perspectives on responsibility and responsabilisation This disagreement is a strength It underlines the importance of unravelling both the differences and similarities across scholars and contexts It also issues a salutatory warning about assumptions that reduce the complex concepts of responsibility and responsabilisation to simplistic fixed categories or to

generalising and universalising single cases or experiences to all areas of education This volume was originally published as a special issue of Discourse Studies in the Cultural Politics of Education     *O-level Physics Challenging Exam Questions (Yellowreef)* Thomas Bond,Chris Hughes,2013-11-22 10 sets of up to date ordinary examination papers modelled closely after the GCE examination answer keys intentionally withheld to simulate actual examination condition full solutions mark schemes and exam reports for the questions available separately best use just before taking the actual examination complete edition and concise edition eBooks available     *A-level Mathematics Challenging Drill Questions (Yellowreef)* Thomas Bond,Chris Hughes,2019-05-05 questions from top schools colleges since 2008 exposes surprise trick questions complete answer keys most efficient method of learning hence saves time arrange from easy to hard both by topics and question types to facilitate easy absorption full set of step by step solution approaches available separately advanced trade book complete and concise eBook editions available also suitable for Cambridge GCE AL H1 H2 Cambridge International A AS Level Books available for other subjects including Physics Chemistry Biology Mathematics Economics English Primary level Secondary level GCE O level GCE A level iGCSE Cambridge A level Hong Kong DSE visit [www.yellowreef.com](http://www.yellowreef.com) for sample chapters and more     **The Yearbook of the Universities of the Commonwealth** ,1956     The administration of examinations for 15-19 year olds in England Great Britain: Parliament: House of Commons: Education Committee,2012-07-03 This report from the Education Committee looks at the administration of examinations for 15 19 year olds in England The Committee expresses serious concerns about incentives in the exam system and about competition on syllabus content Incentives in the system should be changed so the downward pressure through the competition of exam boards is mitigated The Committee considers a number of options to change incentives including i A single board This offers a simpler system with no risk of competition but the Committee believes the cost risk and disruption outweigh the benefits ii Franchising of subjects to exam boards This removes syllabus competition but again has downsides 3 Or the current system of multiple boards The Committee sees no benefit in competition on syllabus content but the setting and marking of exams and associated administration if properly regulated could generate incentives and drive quality up offering value for money to schools and colleges The Committee also recommends the development of national syllabuses accredited by Ofqual The syllabuses would be developed by exam boards in conjunction with learned bodies and employer organisations and could therefore retain the benefits of competition on quality and the incentive for exam boards to innovate     *Commonwealth Universities Yearbook* T.
