**The Language Issue in the Teaching of Mathematics in South Africa** Lindiwe Tshuma, 2021-01-26 The book is the result of a five year project that culminated within the first three years in doctoral research interrogating language competency for meaningful mathematics instruction at upper primary level conducted at University of Stellenbosch in 2017 and this book in the succeeding two years The initial research project received countrywide coverage in several South African media outlets including Times Live and Radio 2000

**The Politics and Governance of Basic Education** Brian Levy, Robert Cameron, Ursula Hoadley, Vinodhan Naidoo, 2018-08-24 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations All over the world economic inclusion has risen to the top of the development discourse A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education Using the vivid example of South Africa a country that had ambitious goals at the outset of its transition from apartheid to democracy it explores how the interaction of politics and institutions affects educational outcomes By examining lessons learned from how South Africa failed to achieve many of its goals it constructs an innovative alternative strategy for making process combining practical steps to achieve incremental gains to re orient the system towards learning

**Improving National Education Systems After COVID-19** Nuno Crato, Harry Anthony Patrinos, 2024-10-14 This open access book compares and analyses the results in twelve countries of the two latest international student assessments Progress in International Reading Literacy Study 2021 PIRLS and the Programme for International Student Assessment 2022 PISA and tries to disentangle the effects of the pandemic from the long term trends in education It is one of the first or maybe the first published volumes to provide a global assessment of the devastating impact of the COVID 19 pandemic on student learning as measured by independent international comparative surveys The 12 countries discussed in this volume represent a wide variety of educational systems including Chile Ecuador England Estonia Italy the Netherlands Poland Portugal South Africa Spain and the United States It compiles diverse scenarios including countries that are high performers countries that perform at the OECD mean and countries that are struggling to attain the OECD average Each country has its history that reflects efforts to cope with pandemic school closures and to improve educational achievement A major topic discussed in this edited volume is related to understanding the diverse circumstances for the variations in results within different countries Why did learning loss in specific locations How much learning was lost Why is a country continuously declining Why is another country constantly improving Why is there higher or less levels of inequality How is a country

regularly improving with an outdated curriculum Which policies have worked and which ones have not What can we do now This book is a valuable contribution to answer these concerns based on a diverse sample of countries and research questions

Radical Solutions for Education in Africa Daniel Burgos,Jako Olivier,2021-08-02 This book explores the state of open education in terms of self directed learning on the African continent Through a combination of conceptual systematic literature review and empirical chapters readers will get a research based impression of these aspects in this area Apart from presenting existing wider trends regarding open education this book also reports on effective open practices in support of self directed learning

*Mathematics and Science Achievement at South African Schools in TIMSS 2003* Vijay Reddy,2006 This monograph reports on South Africa s performance in TIMMS 2003 relative to 50 other countries describes the performance of different groups of learners in South Africa and provides contextual information about teachers schools and the curriculum The report concludes with recommendations for strategic interventions to improve South African learners performance in mathematics and science The findings contained in this report offer valuable insights to academics policymakers curriculum planners and teachers and those involved in the development of education in South Africa

South Africa Sue Bradford Edwards,2025-08-01 South Africa highlights major destinations within the country and the people who shape the nation s culture Readers will learn about the geography wildlife history people and economy of South Africa gaining an understanding of what life looks like in the country today Features include a glossary a map references websites source notes and an index Aligned to Common Core Standards and correlated to state standards Essential Library is an imprint of Abdo Publishing a division of ABDO

*Researching Mathematics Education in South Africa* Renuka Vithal,Jill Adler,Christine Keitel,2005 Reflecting on the theoretical and ideological work that has contributed to the growth of mathematics education research in South Africa this study provides a historical analysis of forces that have changed and shaped mathematics curricula over the years The themes researched and explored include radical pedagogy progressive classroom practices ethnomathematics and South African mathematics education research within both its local and international contexts

*South African Schooling: The Enigma of Inequality* Nic Spaull,Jonathan D. Jansen,2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case

that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people's future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI *Annual Report* South Africa. Code-Switching as a Pedagogical Tool in Bilingual Classrooms Miriam Chitiga, 2021-11-29 Presenting a mixed methods study conducted in a bilingual mathematics classroom in Zimbabwe this text reveals the semantic pedagogical functions and linguistic forms of code switching during STEM instruction Code Switching as a Pedagogical Tool in Bilingual Classrooms offers a detailed analysis of code switching in the context of educational linguistics and reveals ten major pedagogical techniques which illustrate how teachers use code switches to engage students and provide guidance clarification discipline and recaps during individual and whole class interactions Chapters highlight that code switching can be used in a targeted manner to harness the cognitive potential of bilingual speakers and enhance instruction Ultimately the text identifies implications for teacher education language policy and educational leadership more broadly and demonstrates intersections with key areas including functional critical and cultural literacy This text will benefit researchers academics and educators with an interest in bilingualism applied linguistics and secondary education more broadly Those specifically interested in multicultural education sociolinguistics and educational policy will also benefit from this book *Self-directed learning research and its impact on educational practice* Elsa Mentz, Roxanne Bailey, 2021-05-17 This scholarly book is the third volume in an NWU book series on self directed learning and is devoted to self directed learning research and its impact on educational practice The importance of self directed learning for learners in the 21st century to equip themselves with the necessary skills to take responsibility for their own learning for life cannot be over emphasised The target audience does not only consist of scholars in the field of self directed learning in Higher Education and the Schooling sector but includes all scholars in the field of teaching and learning in all education and training sectors The book contributes to the discourse on

creating dispositions towards self directed learning among all learners and adds to the latest body of scholarship in terms of self directed learning Although from different perspectives all chapters in the book are closely linked together around self directed learning as a central theme following on the work done in Volume 1 of this series Self Directed Learning for the 21st Century Implications for Higher Education to form a rich knowledge bank of work on self directed learning *Advances in Operations Research Education* Jeroen Beliën, Ana Paula Teixeira, Hans W. Ittmann, João Luís de Miranda, Marco Laumanns, Margarida Vaz Pato, 2018-02-16 This edited monograph contains a comprehensive overview of educational developments in the fields of operations research OR and management science MS The book outlines key factors in OR MS curricular programs and analyses different approaches regarding student enrollment and failure rates The approach is genuinely international whereas the focus lies on the European level The target audience primarily comprises public policy planners in education deans and school directors as well as program coordinators Leaders in Educational Research María de Ibarrola, D.C. Phillips, 2014-11-04 In this volume fourteen fellows of the International Academy of Education whose research work is known internationally reflect upon the ways in which their careers have been shaped by early family influences by random events and surprise opportunities and by nascent intellectual interests and academic mentoring The authors come from many different countries Australia Belgium Cyprus Germany Greece Israel Mexico South Africa and the USA and from a number of disciplinary or intellectual orientations including curriculum development economics educational measurement and statistical analysis history philosophy policy analysis program evaluation psychology and sociology They come from diverse social and cultural backgrounds and in many cases rose above the travails presented by wars social unrest and social injustice to attain an education that launched them eventually into a research career On this path many were unexpectedly assisted by established researchers who served as mentors or enablers Their personal stories then are of broad interest and may even be a source of comfort and inspiration to younger colleagues who are commencing their careers in the international educational research community Strategic Management in the Public Sector Trevor H. Thys, Prof Charles Wait, Prof Ilse Truter, 2022-07-13 Chapter 1 Integrative strategic planning in South Africa Conceptual frameworks Chapter 2 Electoral mandate priorities policy and strategy Chapter 3 Economic planning economic policy or development policy Past present and future Chapter 4 Planning human resources Chapter 5 General management and leadership Chapter 6 Strategy formulation and environment analysis Chapter 7 Internal analysis and implementation Chapter 8 Strategy implementation and change management Chapter 9 Performance management system Chapter 10 Monitoring and evaluation Chapter 11 Health care in South Africa Chapter 12 Socio economic context of education **Raising the Impact of Education Research in Africa** Charl C. Wolhuter, 2018-12-01 The low demonstrable effect of education research done in South Africa in particular and Africa in general continues to be a problem in scientific records in the educational sciences This scholarly collected work addresses this obstacle and focuses on recommendations from scholars in different sectorial categories in the

field of education Scholars from a variety of sub fields within the educational sciences reflect on this particular matter revisiting the history of research and research outcomes and offering informed recommendations based on in depth investigation and analysis of aspects of the various discourses within the relevant sub fields The scope of the content of this collected work centres on the issue of the lack of scientific records concerning the scientific raising of the impact of education research The book aims at making a specific contribution to the educational sciences by stimulating scholarly discussion around how to increase the recording of the significance of educational research done in Africa and in South Africa in particular and to redirect the research agenda into the direction of making more impact Impact is conceptualised to mean both scholarly impact that is being cited and being used as foundation for theory building and for further research and practical impact that is improvement of practice teaching and learning in education institutions at all levels

### **Visualisation and Epistemological Access to Mathematics Education in Southern Africa** Marc

Schäfer,2023-04-27 This book demonstrates that using visualisation processes in mathematics education can help to enhance teaching and learning and bridge the inequality gap that exists between well resourced and under resourced schools in Southern Africa Drawing on classroom research conducted in the Southern African region it examines how epistemological access in a context of gross inequality can be constructively addressed by providing research based solutions and recommendations The book outlines the visualisation process as an integral but often overlooked process of mathematics teaching and learning It goes beyond the traditional understanding of visualisation processes such as picture forming and using tools and considers visualisation processes that are semiotic in nature and includes actions such as gestures in combination with language It adds value to the visualisation in mathematics education research discourse and deliberation in Africa With a unique focus on Southern Africa and open avenues for further research and collaboration in the region it will be a highly relevant reading for researchers academics and post graduate students of mathematics education comparative education and social justice education Educational Systems of Africa Inez Sepmeyer,Martena Sasnett,1966 **Conflict**

**and Governance** Susan Brown,2005 The Authors interrogate the manner in which South Africas changing economy is re shaping the political and the social landscape Based on in depth analysis of the data suggestions are made for future policy development **A Rumour of Spring** Max du Preez,2013-11-27 Democracy in South Africa turns twenty on 27 April 2014 In A Rumour of Spring Max du Preez investigates and analyses the progress and lack of progress the country has made during these twenty years A Rumour of Spring looks at the legacies of Nelson Mandela and Thabo Mbeki in an attempt to understand how we got here and examines Jacob Zuma s presidency to better understand where we are In the context of blatant corruption populism and tragedies such as the Marikana massacre the book considers the current state of the ruling party and the opposition and dissects the big issues currently afflicting our society including the state of education land reform crime and policing the judiciary nationality and race And then with images of the Arab Spring fresh in our collective

memory it dares to look to the future and what it may hold An honest and balanced account A Rumour of Spring tackles the questions asked by ordinary South Africans every day How are we really doing What is really going on in our country How should we understand what is happening here And will it get any better      Globalisation, Ideology and Education Reforms

Joseph Zajda, 2020-06-17 This book analyses the nexus between ideology the state and education reforms worldwide The research evinces the neo liberal ideological imperatives of current education and policy reforms and illustrates the way these shifts in the relationship between the state and education policy are affecting current trends in education reforms and schooling around the globe With this as its focus the chapters represent hand picked scholarly research on major discourses in the field of global education reforms Offering a compendium of the very latest thought on the subject this book is like the others in the series a state of the art sourcebook for researchers practitioners and policymakers alike Not only do the chapters offer a timely analysis of current issues shaping education policy research the work also contains ideas about future directions that education and policy reforms could take By doing so it provides a comprehensive view of the diverse and intersecting discourses on globalisation and policy driven reforms in education The book draws on recent studies in the areas of globalisation education reforms and the role of the state Respective chapters critically assess the dominant discourses and debates on education and policy reforms Using diverse comparative education paradigms ranging from critical theory to historical comparative research they focus on globalisation ideology and democracy and examine both the reasons for and outcomes of education reforms and policy change
