Le commissaire du gouvernement près le Conseil d'État Nicolas Rainaud, 1996 *La délégation de compétences des organisations internationales* Abdelbasset Ibrahim, 2023-12-14 Afin d'analyser le régime juridique de la délégation de compétences des organisations internationales l'auteur soulève plusieurs questions clés dans quelles conditions et selon quelles modalités une organisation internationale peut-elle déléguer ses compétences un sujet qui lui est extérieur Quels sont les effets d'une telle délégation dans les rapports entre l'organisation déléguante et son délégataire mais aussi entre ce dernier et les tiers En cas de violation éventuelle du droit international quel est l'impact de la délégation sur la responsabilité internationale de l'organisation déléguante Pour répondre ces questions l'auteur examine d'abord les conditions d'établissement de la délégation de compétence avant d'aborder l'étude de sa mise en œuvre

Law and Judicial Dialogue on the Return of Irregular Migrants from the European Union Madalina Moraru, Galina Cornelisse, Philippe De Bruycker, 2020-08-06 This volume examines the implementation of the Return Directive from the perspective of judicial dialogue While the role of judges has been widely

addressed in European asylum law and EU law more generally their role in EU return policy has hitherto remained under explored This volume addresses the interaction and dialogue between domestic judiciaries and European courts in the implementation of European return policy The book brings together leading authors from various backgrounds including legal scholars judges and practitioners This allows the collection to offer theoretical and practical perspectives on important questions regarding the regulation of irregular migration in Europe such as what constitutes inadequate implementation of the Directive and under which conditions can judicial dialogue solve it How can judges ensure that the right balance is struck between effective return procedures and fundamental rights Why do we see different patterns of judicial dialogue in the Member States when it comes to particular questions of return policy for example regarding the use of detention These questions are more timely than ever given the shifting public discourse on immigration and the growing political backlash against immigration courts This book will be essential reading for all scholars and practitioners in the fields of immigration law and policy EU law and public law

Why Religious Freedom Matters for Democracy Myriam

Hunter-Henin,2020-06-11 Should an employee be allowed to wear a religious symbol at work Should a religious employer be allowed to impose constraints on employees private lives for the sake of enforcing a religious work ethos Should an employee or service provider be allowed on religious grounds to refuse to work with customers of the opposite sex or of a same sex sexual orientation This book explores how judges decide these issues and defends a democratic approach which is conducive to a more democratic understanding of our vivre ensemble The normative democratic approach proposed in this book is grounded on a sociological and historical analysis of two national stories of the relationships between law religion diversity and the State the British mainly English and the French stories The book then puts the democratic paradigm to the test by looking at cases involving clashes between religious freedoms and competing rights in the workplace Contrary to the current alternative between the accommodationist view which defers to religious requests and the analogous view which undermines the importance of religious freedom for pluralism this book offers a third way It fills a gap in the literature on the relationships between law and religious freedoms and provides guidelines for judges confronted with difficult cases La

Administrative Law John Bell,François Lichère,2022-03-03 Despite the growing scholarly interest in comparative public law there remain relatively few works on the subject Contemporary French Administrative Law aims to redress that imbalance offering English language readers an authoritative introduction to the key features of French administrative law and its institutions The French legal system is among the most well developed and influential in the world and as procedures continually adapt to European and international influences it has never been more worthy of research study and interrogation This book employs a wide range of recent illustrative cases to demonstrate how French administrative law works both in theory and in practice Using a systematic approach and covering everything from judicial review to public

contracts this is a highly valuable text for any student or researcher with an interest in French law The book is also available as Open Access **The enforcement dimension of the single supervisory mechanism** SILVIA

ALLEGREZZA,2020-09-14 This book explores the sheer complexity of the SSM s institutional design adopting an comprehensive approach to banking supervision At its core this work examines the tangible mechanisms of prudential regulation or supervision both at the European and national levels offering a comparative analysis of ten national systems Reflecting the results of an intensive four year research project that saw the collaboration of academics and practitioners it addresses two interrelated issues It investigates the efficacy of the shared national and EU level enforcement system the EU introduced in reaction to the financial and banking crisis Secondly it scrutinizes the role that criminal law can play in sanctioning the breaches to banking regulation The Ghostwriters Tommaso Pavone,2022-04-07 The European Union is often depicted as a cradle of judicial activism and a polity built by courts Tommaso Pavone shows how this judge centric narrative conceals a crucial arena for political action Beneath the radar Europe s political development unfolded as a struggle between judges who resisted European law and lawyers who pushed them to embrace change Under the sheepskin of rights conscious litigants and activist courts these Euro lawyers sought clients willing to break state laws conflicting with European law lobbied national judges to uphold European rules and propelled them to submit noncompliance cases to the European Union s supreme court the European Court of Justice by ghostwriting their referrals By shadowing lawyers who encourage deliberate law breaking and mobilize courts against their own governments The Ghostwriters overturns the conventional wisdom regarding the judicial construction of Europe and illuminates how the politics of lawyers can profoundly impact institutional change and transnational governance **Le contrôle de l'administration économique en**
