Air Power Dennis Haslop, 2018-01-03 This book examines the British and German approach to naval air power describing the
creation and development of the two naval air service organizations and doctrine This work provides new insights as to how
two naval air services were influenced by internal and political interventions and how each was integrated into the
organizational structures of the Royal Navy and the Kaiserliche Marine KM Both the Admiralty and the KM made substantial
alterations to their organizations and doctrine in the process Principal air doctrines employed are examined chronologically
and the application of operational doctrine is described While they adopted similar air doctrines there were differences in
operational doctrine which they addressed according to their different requirements This book is a comparative study about
the development of organization and air power doctrine in the RNAS Royal Naval Air Service and the IGRNAS Imperial
German Naval Air Service It investigates public and political interventions and early concepts of air power placing into
context the factors which contributed to how naval theorists came to think about the best means of controlling its working
medium air space Ultimately it examines the similarities and differences between the RNAS and IGRNAS understanding of
naval air power within the broader strategic and theoretical framework of their parent organizations This book will be of
great interest to students of air power naval power military history strategic studies and IR in general International
