

T775A,B,C,D Remote Temperature Controller

PRODUCT DATA

APPLICATION

The T775 family of Electronic Remote Temperature Controllers provide on-off temperature control for ducts, tanks, chillers, heating and refrigeration units, and other applications where electronic accuracy in addition to remote sensing is desired.

In addition, certain models of the T775 family of controllers provide on-off temperature control of heating, cooling, and ventilating systems in agricultural confinement buildings, storage areas and heavy industrial applications.

IMPORTANT

The T775 is an operating control, not a limit or safety control. If used in applications requiring safety or limit controls, a separate safety or limit control device should be used in conjunction with the T775.

FEATURES

- T775A models provide staged on-off control with one temperature input and one to four relay output stages.
- T775B models provide staged on-off control with two temperature inputs and two to four relay output stages.
- T775C models provide staged on-off control with one temperature input and four relay output stages.
- T775D models provide staged on-off control with two temperature inputs and four relay output stages.
