How To Turn A Into A Pages Document

**Ian H. Witten, David Bainbridge, David
M. Nichols**

How To Turn A Into A Pages Document:

iWork '05 Jim Elferdink, 2005-09-21 Introduced by Apple in January 2005 iWork 05 is an innovative new suite of document and presentation software that's the same caliber as Apple's groundbreaking digital media applications and that's wholly dedicated to what Mac users like you care about most: artistry and creativity. iWork 05 isn't about office productivity; it's about creating slick and stylish documents and cinema quality digital presentations that say precisely what you want them to say. While iWork 05 helps you create stunning documents and presentations, the suite doesn't come with any in-depth documentation of its own. That's where iWork 05 The Missing Manual comes in. The book that should have been in the box it gives you everything you need to master iWork 05. Seamlessly integrated with the wildly popular iLife 05 and designed to take advantage of the advanced typography and graphics engine of Mac OS X, iWork is actually two separate programs: Pages and Keynote 2. Pages is a brand new streamlined word processor and page layout program that allows nonprofessionals to quickly and painlessly produce gorgeous brochures, newsletters, letters, invitations, product data sheets, and more. You can start documents from scratch or use one of the 40 professionally designed templates as a starting point. Keynote 2 is a significant upgrade to Apple's PowerPoint-like presentation software that allows you to build unique presentations, demonstrations, storyboard animations, interactive slideshows, and more. Like every Missing Manual, this one is refreshingly entertaining and scrupulously detailed. iWork 05 The Missing Manual gives you all the essentials of Pages and Keynote 2, including an objective look at each program's capabilities, its advantages over similar programs, and its limitations. The book delivers countless goodies that you won't find anywhere else: undocumented tips, tricks, and secrets for getting the very best results from both exciting new applications. With the iWork 05 suite and iWork 05 The Missing Manual, you are totally equipped to give your work the style it deserves.

iWork '09: The Missing Manual Josh Clark, 2009-04-23 With iWork 09, Apple's productivity applications have come of age. Unfortunately, their user guides are stuck in infancy. That's where iWork 09 The Missing Manual comes in. This book quickly guides you through everything you need to know about the Pages word processor, the Numbers spreadsheet, and the Keynote presentation program that Al Gore and Steve Jobs made famous. Friendly and entertaining, iWork 09 The Missing Manual gives you crystal clear and jargon-free explanations of iWork's capabilities, its advantages over similar programs, and its limitations. You'll see these programs through an objective lens that shows you which features work well and which don't. With this book, you will produce stunning documents and cinema quality digital presentations. Take advantage of Mac OS X's advanced typography and graphics capabilities. Learn how to use the collection of themes and templates included with iWork. Get undocumented tips, tricks, and secrets for each program. Integrate with other iLife programs to use photos, audio, and video clips. Learn why iWork is the topic most requested by Missing Manual fans. One of the few sources available on Apple's incredible suite of programs, iWork 09 The Missing Manual will help you get the best performance out of Pages, Numbers, Keynote, and more in no time.

iWork: The Missing Manual Jessica

Thornsby, Josh Clark, 2014-03-18 Apple's iWork is more versatile than ever now that there are versions for Mac, iOS, and even iCloud. The only thing iWork doesn't include is its own how-to guide. That's where this friendly jargon-free Missing Manual comes in. With complete instructions and helpful examples, you'll quickly learn how to create stunning documents, slideshows, and spreadsheets with iWork's Pages, Keynote, and Numbers. The important stuff you need to know: Create elegant files in minutes. Save tons of time by using iWork's collection of prebuilt templates and themes. Craft a variety of documents. Use Pages to design attractive newsletters, catalogs, brochures, flyers, and posters. Build eye-popping presentations. Turn Keynote's themes and easy-to-use cinematic effects into beautiful custom slideshows. Organize and clearly convey information. Jazz up your Numbers spreadsheets with charts, images, and videos. Always have your work on hand. Store your files in iCloud and have them sync automatically to your Mac and iOS devices. Work anywhere, any time. Use the web-based iWork for iCloud to create projects on any computer, even a PC. Versions covered: This edition covers Pages for Mac 5.1, Keynote for Mac 6.1, Numbers for Mac 3.1, version 2.1 of each iOS app, and iWork for iCloud. Take Control of Pages, 4th Edition Michael E. Cohen, 2023-10-10 Unlock the power of Pages for Mac and iPad. Version 4.0 updated October 10, 2023. Discover how to make the most out of Pages. In this fully revised fourth edition, Michael E. Cohen digs deep into Pages, unearthing the nuggets of knowledge you need to make your work shine. Create complex documents of all sorts on your Mac or iPad, sync them via iCloud, and share them with other people. Apple's Pages word processor is a big, rich app with hundreds of features tucked away in nooks and crannies, making Michael E. Cohen's comprehensive book an essential resource for newbies and experts alike. Whether you prefer to dive into the details or get quick help with a particular feature, this book has got you covered. Note: This edition of the book focuses primarily on the Mac and iPad versions of Pages, although it does cover the iPhone and web versions of the app to a limited extent. In this thoroughly revised fourth edition, Michael expands his already extensive guide, detailing all the changes Apple has made to Pages since the last version of the book was released, including support for macOS 14 Sonoma and iPadOS 17. Among many other new and updated features, learn about using Mail Merge, adding and working with 3D images, and collaborating with other users on a document. You'll also learn how to find features that have been moved or renamed. With Michael's help, you can navigate Pages like a pro. You'll also learn how to find all the tools you need, whether on a Mac or an iPad. Do everyday word processing, including working with fonts, tabs, indents, rulers, search, and replace, spell checking, and more. Format longer, more complex documents with customized headers, footers, page numbers, tables of content, footnotes, and section breaks. Manage styles, including paragraph styles, character styles, list styles, and object styles. Create your own templates, complete with layout objects. Master the many multi-touch gestures in iPadOS that give you pinpoint control over page elements. Include complex tables and charts and make them look exactly the way you want. Customize layout and manipulate graphics like a pro. Collaborate with others in real time using iCloud. Share your documents across devices using Mac, iPad, iPhone, or almost any web browser. Adobe Acrobat 8 How-Tos Donna L. Baker, 2007-02-12

Increase your productivity with Acrobat one technique at a time Now that PDF has become the ubiquitous electronic document format it s important to recognize that there s much more to Adobe Acrobat than just managing your documents and improving workflow With this powerful tool you can now communicate with new commenting tools collaborate with individuals and teams automate forms provide additional security use redactive tools and accom plish tasks for greater productivity and efficiency But with all this power how do you bring your Acrobat skills up to speed quickly Never fear Acrobat expert Donna L Baker has picked out the most integral techniques for accomplishing nearly any office communication task You ll be expanding your PDF skills in no time in this focused handy guide Here are just some of the things you ll learn to do Conduct searches quickly by building an index and attaching it to files Merge multiple files into a single PDF document and create a custom cover Create comments in PDF documents start a review and work with comments Use new form tools in Acrobat 8 for drawing fields tracking responses and creating a form automatically Set up an online meeting in Acrobat Connect Add movies and 3D content and create interactive presentations Assign levels of security and passwords to documents using new hashing algorithm support in Acrobat 8
