# Maths at University Interview Questions

Below is a list of questions that have been asked at interviews (mainly at Oxford/Cambridge, but also other universities too).

Sometimes the interviewer will gently ask such things as:

a) Tell us about some maths books that you have been reading.

b) Why do you want to study maths?

c) What areas of maths do you like? (this is a prompt for the next question which will be on that topic!)

Mainly (particularly at Oxford/Cambridge) there is little or no gentle chit chat, and straight into the fun stuff like:

1. Which is bigger $2^x$ or $x^2$?
2. Draw $y = A\left(1 - e^{-Bx}\right)^2$
3. Differentiate $y = x^{\sin x}$
4. Find an approximation to $1^4 + 2^4 + 3^4 + \ldots + 100^4$
5. Draw $y = \dfrac{e^\theta}{1+e^\theta}\sin\theta$ and $x = \dfrac{e^\theta}{1+e^\theta}\cos\theta$
6. Draw $y = \cos x^{\cos x}$
7. Prove $\dfrac{a}{b} + \dfrac{b}{a} \geq 2$
8. Draw: $y = e^x$, $y = e^{-x}$, $y = \dfrac{e^x + e^{-x}}{2}$
9. Draw $y = \dfrac{\sin x}{x}$
10. Prove $n^7 - n$ is always divisible by 42.
11. $\left(6 + \sqrt{37}\right)^{20} = 4398704651\ldots\bullet 9999999999\,437569\ldots$
    Can you show why this number is so close to an integer?
12. On a plane each individual point can be either red, white or blue. Prove that at some point on the plane two points will be at a distance of one unit apart and the same colour.

Hakel,2013-01-11 This volume provides in depth coverage of a key piece of today s human resource selection technology the viability of alternatives to paper and pencil multiple choice selection tests Each chapter of this edited volume presents an intensive examination of a key alternative to multiple choice testing The content of the book s chapters ranges from reviews of issues associated with and evidence available for the use of particular selection text alternatives computerized testing performance assessments to empirical investigation of other alternatives biodata creative skills from examination of standards for choosing among selection tests to practitioners and test takers perspectives This book is important for researchers and practitioners in the human resource selection field who have wanted a resource that

provides a comprehensive examination of multiple choice selection testing and its alternatives **Using Think-aloud Interviews and Cognitive Labs in Educational Research** Jacqueline P. Leighton,2017 This book provides the first volume focused on distinguishing psychological interview methods for probing distinct forms of student cognition for assessment purposes student problem solving versus student comprehension and understanding of the subject matter at hand

**Bahamian Students' Experiences with Mathematics in American Universities and Colleges** Nikki Rochelle Cleare,2011 This longitudinal qualitative multi case study examines the mathematical experiences of three Bahamian students pursuing science degrees in American universities and its relationship to their previous mathematical experiences in their Bahamian high schools Drawing on cultural psychology and sociocultural theories of learning this study found that the relationship between the academic preparedness of the participants on their experiences with collegiate mathematics is not limited to subject content only The lessons learnt from the implied curriculum also play a role in their experiences with collegiate mathematics Of the three participants two have had to learn develop techniques for studying because they had not been sufficiently challenged in their previous environments to do so Each of the cases also highlights some powerful constructs needed for success in mathematics and at least two emphasize making connections between concepts procedures manipulatives tools and multiple approaches when solving problems This study contributes to an emerging area of research on student persistence in college level mathematics courses as well as to the ongoing discussions in mathematics education regarding the role importance of conceptual understanding and how to promote it The study makes visible some of the ways in which students post secondary experiences with mathematics are shaped by their perception of their mathematical preparation thus providing a basis for discussions of possible curricular change in the Bahamas It also suggests that issues such as confidence and school teacher expectations of students may play a role in the development of conceptual understanding **Psychological Studies in the Teaching, Learning and Assessment of Mathematics** Yiming Cao,Zsolt Lavicza ,Shuhua An,Lianchun Dong,2024-05-31 There is no doubt that the onset of a new decade has brought high expectations of academic progress for scholars especially for researchers in mathematics education The International Group for the Psychology of Mathematics Education was born in 1976 which focused on the international exchange of knowledge in the psychology of mathematics education the promotion of interdisciplinary research with psychologists mathematicians and mathematics teachers and the development of the psychological aspects of teaching and learning mathematics and its implications PHR / SPHR Exam For Dummies Sandra M. Reed,2016-01-06 Your ideal all inclusive study guide for the PHR and SPHR exams Adding the Professional in Human Resources PHR or Senior Professional in Human Resources SPHR certification to your resume immediately places you above less qualified competitors After studying with PHR SPHR Exam For Dummies you will conquer the exam armed with confidence and a solid understanding of the test and its presentation This book online product includes 4 unique practice tests two in the book one PHR one SPHR and two additional tests online

one additional PHR one additional SPHR All practice questions include detailed answers and explanations As human resources becomes an increasingly popular field you should snatch every opportunity to give yourself an edge Updated to cover the six functional areas included in the three hour 175 question online exam Business Management Strategy Workforce Planning Employment Human Resource Development Compensation Benefits Employee Labor Relations and Risk Management Prepares readers to take an exam that replaces the 60 credit hours of continuing education that is required for recertification every three years For aspiring students and human resources professionals this For Dummies text is the ideal guide to acing the PHR SPHR Exam **Resources in Education** ,1998-12 **Competition Science Vision** ,2002-11 Competition Science Vision monthly magazine is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India Well qualified professionals of Physics Chemistry Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to the point study material for aspiring candidates The magazine covers General Knowledge Science and Technology news Interviews of toppers of examinations study material of Physics Chemistry Zoology and Botany with model papers reasoning test questions facts quiz contest general awareness and mental ability test in every monthly issue The Career Kickstart Your 28-Day Action Plan for Finding Your Dream Job J.G. Somers,2022-05-04 Find Your Dream Job in 28 Days Tired of Your Job Your Boss or Your Company The Career Kick Start will not only help you get out of a bad job situation it will help you find the career you were meant for If you know there must be something better out there for you you need this book Inside this book you will discover What your unique talents and abilities are What you really want out of a job The difference between a career and a job How to create the perfect resume How to write a cover letter that gets you the job How to be a happier employee Tips for nailing the interview What to avoid with social media How to negotiate your salary And Much More This book takes you on a 28 day journey Every day you work through a single section that focuses on a single concept or task At the end of 28 days you will have what you need to get your dream job J G Somers has been helping people find their dream jobs for over twenty years She worked as a teacher and college admission counselor and helped students of all ages find their true callings Somers has since moved on to become a business analyst and has never been happier She still takes time to mentor and tutor clients looking to make a career change Someday Somers will be looking for her next challenge When that happens she will be using the step by step process in this book to find her next opportunity What are you waiting for Your dream job is waiting for you Get Your Copy of the Career Kick Start Right Now **Cscl 2** Timothy Koschmann,Rogers P. Hall,Naomi Miyake,2013-05-13 CSCL 2 Carrying Forward the Conversation is a thorough and up to date survey of recent developments in Computer Supported Collaborative Learning one of the fastest growing areas of research in the learning sciences A follow up to CSCL Theory and Practice of an Emerging Paradigm 1996 this volume both documents how the field has grown and fosters a meaningful discussion of how the research program might be advanced in substantive ways

Recognizing the long standing traditions of CSCL work in Europe and Japan the editors sought to broaden and expand the conversation both geographically and topically The 45 participating authors represent a range of disciplinary backgrounds including anthropology communication studies computer science education psychology and philosophy and offer international perspectives on the field For each chapter the goal was not only to show how it connects to past and future work in CSCL but also how it contributes to the interests of other research communities Toward this end the volume features a conversational structure consisting of target chapters invited commentaries and author responses The commentaries on each chapter were solicited from a diverse collection of writers including prominent scholars in anthropology of education social studies of science CSCW argumentation activity theory language and social interaction ecological psychology and other areas The volume is divided into three sections Part I explores four case studies of technology transfer involving CSILE one of the most prominent CSCL projects Part II focuses on empirical studies of learning in collaborative settings Part III describes novel CSCL technologies and the theories underlying their design Historically there has been a certain amount of controversy as to what the second C in CSCL should represent The conventional meaning is collaborative but there are many C words that can be seen as relevant With the publication of this volume conversational might be added to the list and in this spirit the book might be viewed as an invitation to join a conversation in progress and to carry it forward Competition Science Vision ,2003-03 Competition Science Vision monthly magazine is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India Well qualified professionals of Physics Chemistry Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to the point study material for aspiring candidates The magazine covers General Knowledge Science and Technology news Interviews of toppers of examinations study material of Physics Chemistry Zoology and Botany with model papers reasoning test questions facts quiz contest general awareness and mental ability test in every monthly issue

The Job Search Navigator Matt Durfee,2015-12-21 A no holds barred view of career management in a turbulent world provides a reality based perspective that should be of value to all who read it Len Schlesinger president emeritus at Babson College Baker Foundation professor Harvard Business School In these uncertain times The Job Search Navigator is a reliable guide to every step of the twenty first century job hunt whether readers are laid off wanting to change careers after surviving cutbacks or seeking a better full time gig in a stagnant marketplace Author Matt Durfee writes from the perspective of someone who has both recruited for some of America s biggest companies and navigated his way through nine of his own job losses The book combines practical real world perspectives with the technical knowledge job seekers need in order to excel at every aspect of their searches Drawing on the knowledge Durfee accumulated through his own experiences searches and big brand corporate hiring responsibilities The Job Search Navigator abandons the clinical approach of many other career advice books Instead Durfee gives easy to follow strategies and perhaps more importantly recounts in illuminating detail the

kinds of mistakes that led him to develop these strategies From the strategic to the emotional to the tactical this is one of the most practical and useful books on career management I ve read in a very very long time L Kevin Cox chief human resources officer American Express Company Matt s expertise in this space is unmatched We live in a world where constant reinvention is the rule and The Job Search Navigator is essential reading for those who want to take control of their career trajectory Scott Westerman executive director associate vice president for alumni relations Michigan State University **Latinos/as and Mathematics Education** Kip Téllez,Judit N. Moschkovich,Marta Civil,2011-05-01 This book that explores the mathematics education of Latinos as in 13 original research studies Each chapter represents research that grounds mathematics instruction for Latinos as in the resources to be found in culture and language By inverting the deficit perspective this volume redresses the shortcomings found in the previous literature on Latino a learners Each study frames language e g bilingualism not as an obstacle to learning but as a resource for mathematical reasoning Other chapters explore the notion of cultural variation not as a liability but as a tool for educators to build upon in the teaching of mathematics Specifically the book reframes culture as a focus on the practices objects inscriptions or people that connect mathematical concepts to student thinking and experiences both in and out of school The book s four sections divide the research The first section of the book focuses on mathematic learning in classrooms specifically exploring bilingual Latino a students the second section explores Latino a learners in communities including the role parents can play in advancing learning the third section includes chapters focused on teacher professional growth the final section concerns the assessment and mis assessment of Latino a learners The research shared in this volume provides ample evidence that mathematics educators who choose to ignore language or culture in their pedagogy risk shortchanging their Latino a students *Literacy, Culture and Development* Daniel A. Wagner,1993 Literacy is thought to be one of the primary cultural transmitters of information and beliefs within any society where it exists Yet when considered as a social phenomenon literacy is remarkably difficult to define because its functions meanings and methods of learning vary from one cultural group to the next This book compares and contrasts our understanding of literacy and its acquisition and retention It addresses major debates in education policy today such as the importance of mother tongue literacy programs the notion of literacy relapse and the concept of educational poverty The author focuses on Moroccan children whose parents are unschooled whose language is often different from that used in the classroom and whose first instruction often involves rote religious teaching Manpower ,1971 **Designing and Implementing Global Selection Systems** Ann G. Ryan,Nancy T. Tippins,2009-03-30 Designing and Implementing Global Selection Systems providesinsights and essential management tools for planning andimplementing an effective global staffing system Provides the basic principles of employee selection andinsights into the challenges of globally standardized selectionsystems Describes common pitfalls and the most effective best practicestrategies for global staffing issues Includes helpful sidebars with examples to assist in making thebest choices regarding selection system

development andimplementation

This is likewise one of the factors by obtaining the soft documents of this **Interview Math Test** by online. You might not require more time to spend to go to the ebook establishment as capably as search for them. In some cases, you likewise complete not discover the proclamation Interview Math Test that you are looking for. It will entirely squander the time.

However below, with you visit this web page, it will be fittingly agreed easy to get as without difficulty as download lead Interview Math Test

It will not acknowledge many period as we notify before. You can accomplish it though act out something else at house and even in your workplace. thus easy! So, are you question? Just exercise just what we allow under as skillfully as review **Interview Math Test** what you afterward to read!
