Political Memory and the Aesthetics of Care Mihaela Mihai, 2022-01-11 With this nuanced and interdisciplinary work, political theorist Mihaela Mihai tackles several interrelated questions: How do societies remember histories of systemic violence? Who is excluded from such histories? What are the political costs of selective remembering in the present? Building on insights from political theory, social epistemology, and feminist and critical race theory, Mihai argues that a double erasure often structures hegemonic narratives of complex violence, of widespread heterogeneous complicity, and of impure resistances not easily subsumed to exceptionalist heroic models. In dialogue with care ethicists and philosophers of art, she then suggests that such narrative reductionism can be disrupted aesthetically through practices of mnemonic care that is through the hermeneutical labor that critical artists deliver thematically and formally within communities' space of meaning. Empirically, the book examines both consecrated and marginalized artists who tackled the memory of Vichy France, communist Romania, and apartheid South Africa. Despite their specificities, these contexts present us with an opportunity to analyze similar mnemonic dynamics and to recognize the political impact of dissenting artistic production. Crossing disciplinary boundaries, the book intervenes in debates over collective responsibility, historical injustice, and the aesthetics of violence within political theory, memory studies, social epistemology, and transitional justice.

Williams,2012-10-18 This book invites us to approach friendship not as something that simply is but as something performed in and through language Roman friendship is read across a wide spectrum of Latin texts from Catullus poetry to Petronius Satyricon to the philosophical writings of Cicero and Seneca from letters exchanged by the Emperor Marcus Aurelius and his beloved teacher Fronto to those written by men and women at an outpost in northern Britain One of the most innovative features of this study is the equal attention it pays to Latin literature and to inscriptions carved in stone across the Roman Empire What emerges is a richly varied and perhaps surprising picture Hundreds of epitaphs commissioned by men and women citizens and slaves record the commemoration of friends which is of equal importance to understanding Roman friendship as Cicero s influential essay De amicitia *International Weekly Miscellany of Literature, Art, and Science* ,1852 [The International Monthly Magazine of Literature, Science, and Art](#) ,1852 **The International Magazine of Literature, Art, and Science** ,1852 [Antonio Perez, "Spanish Traitor."](#) Gregorio Marañón,1954 **Neofascism in Europe (1945-1989)** Matteo Albanese,2022-09-30 The text represents a long

journey in the debate that characterized the multifaceted political phenomenon of neofascism From the end of the Second World War until the fall of the communist regimes groups parties and individuals have given life to a network of action and thought that has developed above all around three major themes that have characterized the thought of historical fascism and that we can find at different latitudes during the course of the long period of time under consideration Racism contempt for equality and democracy and an issue linked to the state as an element of modernity these are the three levels of analysis around which the neofascist movement regroups debates and acts The meticulous reconstruction of that debate at a transnational level is the result of a long archival work with unpublished and illuminating papers on the issue of continuity between political cultures The text can be easily read by students of Humanities and Social Sciences courses but it is also pleasant for fans of the subject
