## Economics (7136)

Paper 2 National and international economy

June 2013 (new style)

Time allowed: 2 hours

### Instructions

- In **Section A**, answer **EITHER** Context 1 **OR** Context 2.
- In **Section B**, answer **one** essay.

### Information

- There are 80 marks available on this paper.
- The marks for questions are shown in brackets.

Please note: This is not an AQA publication. The questions from the original ECO204 paper have been altered in order to make them more closely resemble questions from the new 7136/2 Economics paper and the number of marks awarded for each question is in line with the new specification also.

Summary of changes: in Section A, the old question 1 for each context has been pulled apart to create a calculation question (new question 1) and an explain from the data question (new question 2); old question 2 has been tweaked to turn it into an explain with the use of a diagram question (new question 3); old question 3 (the 25 mark question) remains largely unchanged as the new question 4. Questions in Section B are unaltered.

2024-25 TGT/PGT Economics Solved Papers YCT Expert Team , 2024 25 TGT PGT Economics Solved Papers Is the Planet Full? Ian Goldin,2014-05-15 What are the impacts of population growth Can our planet support the demands of the ten billion people anticipated to be the world s population by the middle of this century While it is common to hear about the problems of overpopulation might there be unexplored benefits of increasing numbers of people in the world How can we both consider and harness the potential benefits brought by a healthier wealthier and larger population May more people mean more scientists to discover how our world works more inventors and thinkers to help solve the world s problems more skilled people to put these ideas into practice In this book leading academics with a wide range of expertise in demography philosophy biology climate science economics and environmental sustainability explore the contexts costs and benefits of a burgeoning population on our economic social and environmental systems *World Intellectual Property Report 2013: Brand - Reputation and Image in the Global Marketplace* World Intellectual Property Organization,2013 WIPO s World Intellectual Property Report 2013 explores the role that brands play in today s global marketplace The Report looks at how branding behavior and trademark use have evolved in recent history how they differ across countries what is behind markets for brands what lessons economic research holds for trademark policy and how branding strategies influence companies innovation activities **Proceedings of the Third International Conference on Computing, Mathematics and Statistics (iCMS2017)** Liew-Kee Kor,Abd-Razak Ahmad,Zanariah Idrus,Kamarul Ariffin Mansor,2019-03-27 This book is a product of the Third International Conference on Computing Mathematics and Statistics iCMS2017 to be held in Langkawi in November 2017 It is divided into four sections according to the thrust areas Computer Science Mathematics Statistics and Multidisciplinary Applications All sections sought to confront current issues that society faces today The book brings collectively quantitative as well as qualitative research methods that are also suitable for future research undertakings Researchers in Computer Science Mathematics and Statistics can use this book as a sourcebook to enrich their research works *OECD Economic Surveys: New Zealand 2013* OECD,2013-06-04 OECD s 2013 Economic Survey of New Zealand examines recent economic developments policies and prospects This issue features special chapters on school to work transition and long term growth **Politics Meets Markets** Tao Huang,Weiping He,2024-12-17 The book highlights several aspects with Chinese characteristics that set the country s financial system apart One key element is the significant influence of the Communist Party of China CPC on the financial markets The Party plays a crucial role in shaping and driving policies within the financial sector reflecting a distinct interplay between politics and finance Additionally the book emphasizes the involvement of various authorities within the government the court system and the intricate relationship between the courts and the governments in influencing the dynamics of the financial markets These factors collectively contribute to a distinctive environment that cannot be fully understood through conventional theoretical frameworks The

major analytical points of the book revolve around the intricate triangular relationships among China's politics, financial market rules and the financial markets themselves. The authors argue that relying solely on any existing school of thoughts is insufficient for comprehending the complexities of China's financial landscape. Instead, the book explores the multifaceted connections between politics, courts and the financial markets. It delves into how political forces drive the formulation, development and enforcement of financial market rules, including the roles played by various government bodies and the legal system. Unlike a focus on regulations and rules merely on paper, the book takes a grounded approach by investigating China's financial markets rules in practical terms. By doing so, it seeks to discover the underlying logic behind the unique features of China's financial system, providing a nuanced understanding of the interactions between political forces, legal frameworks and the financial markets in the Chinese context.

**Information and Communication Technologies (ICT) in Economic Modeling** Federico Cecconi, Marco Campenni, 2019-07-30. This book presents the effects of integrating information and communication technologies (ICT) and economic processes in macroeconomic dynamics, finance, marketing, industrial policies and in government economic strategy. The text explores modeling and applications in these fields and also describes in a clear and accessible manner the theories that guide the integration among information technology (IT), telecommunications and the economy while presenting examples of their applications. Current trends such as artificial intelligence, machine learning and big data technologies used in economics are also included. This volume is suitable for researchers, practitioners and students working in economic theory and the computational social sciences.

**Inequality Studies from the Global South** David Francis, Imraan Valodia, Edward Webster, 2020-05-04. This book offers an innovative interdisciplinary approach to thinking about inequality and to understanding how inequality is produced and reproduced in the global South. Without the safety net of the various Northern welfare states, inequality in the global South is not merely a socio-economic problem but an existential threat to the social contract that underpins the democratic state and society itself. Only a response that is firmly grounded in the context of the global South can hope to address this problem. This collection brings together scholars from across the globe with a particular focus on the global South to address broad thematic areas such as the conceptual and methodological challenges of measuring inequality, the political economy of inequality in the global South, inequality in work, households and the labour market and inequalities in land, spaces and cities. The book concludes by suggesting alternatives for addressing inequality in the global South and around the world. The pioneering ideas and theories put forward by this volume make it essential reading for students and researchers of global inequality across the fields of sociology, economics, law, politics, global studies and development studies.

**The Shifts and the Shocks** Martin Wolf, 2014-09-11. From the chief economic commentator for the Financial Times, a brilliant tour d'horizon of the new global economy. There have been many

books that have sought to explain the causes and courses of the financial and economic crisis that began in 2007 *The Shifts and the Shocks* is not another detailed history of the crisis but is the most persuasive and complete account yet published of what the crisis should teach us about modern economies and economics. Written with all the intellectual command and trenchant judgment that have made Martin Wolf one of the world's most influential economic commentators, *The Shifts and the Shocks* matches impressive analysis with no holds barred criticism and persuasive prescription for a more stable future. It is a book no one with an interest in global affairs will want to neglect.
