

Tuff Torq K61 Hydrostatic Transaxle

Oil Change Frequency

For consumer use in yard tractor and riding mower applications oil changing is not emphasized as most homeowners are not equipped or in the habit of changing transmission oil. For most consumers, the transaxle will outlast the life of the vehicle. It must be said that changing oil will extend the life of the transmission.

However, in commercial and heavy usage applications oil changing is recommended after the first 50 hours of operation and every 200 hours thereafter.

The filter should never require changing unless the transaxle is removed from the tractor or riding mower and opened for repairs.

Oil Requirement

Approximately 3.3 liters of SAE 10W30, Class CC or CD engine oil.
