**The Leader in Me** Stephen R. Covey, 2012-12-11 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It is based on a hugely successful initiative carried out at the A B Combs Elementary School in North Carolina. To hear the parents of A B Combs talk about the school is to be amazed. In 1999 the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children who blossomed under the programme. By the end of the following year the average end of grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits that have already changed the lives of millions of people and shows how children can use them as they develop. Those habits begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize and sharpen the saw. These are critical skills to learn at a young age and bring incredible results, proving that it is never too early to teach someone how to live well. *Nutrition Education*

Makeology Kylie Peppler, Erica Halverson, Yasmin B. Kafai, 2016-05-20 Makeology introduces the emerging landscape of the Maker Movement and its connection to interest-driven learning. While the movement is fueled in part by new tools, technologies and online communities available to today's makers, its simultaneous emphasis on engaging the world through design and sharing with others harkens back to early educational predecessors including Froebel, Dewey, Montessori and Papert. Makerspaces as Learning Environments Volume 1 focuses on making in a variety of educational ecosystems spanning nursery schools, K-12 environments, higher education, museums and after-school spaces. Each chapter closes with a set of practical takeaways for educators, researchers and parents. *Primary Education*, 1914 **Great Habits, Great Readers** Paul Bambrick-Santoyo, Aja Settles, Juliana Worrell, 2013-05-29 A book that brings the habits of reading to life. Great readers are not made by genetics or destiny but by the habits they build. Habits that are intentionally built by their teachers. The early formal years of education are the key to reversing the reading gap and setting up children for success. But K-4 education seems to widen the gap between stronger and weaker readers, not close it. Today the Common Core further increases the pressure to reach high levels of rigor. What can be done? This book includes the strategies, systems and lessons from the top classrooms that bring the habits of reading to life, creating countless quality opportunities for students to take one of the most complex skills we as people can know and to perform it fluently and easily. Offers clear teaching strategies for teaching reading to all students, no matter what level. Includes more than 40 video examples from real classrooms. Written by Paul
