The Art of Focused Conversation for Schools, Third Edition Jo Nelson, 2013-08-20 Why don't kids learn? Why can't students do higher order thinking? Why do educators have endless staff meetings with few results? How can parents and teachers communicate better? The pressure upon educators to teach more to a wider range and number of students with decreasing resources and supports makes it urgent to find tools to answer such questions. *The Art of Focused Conversation for Schools* demonstrates how the Focused Conversation method, widely used in organizations and businesses, can effectively be used in a K-12 educational setting. Each section deals with interactions among students, staff, and parents and elaborates with over 100 sample conversations designed to make learning more meaningful, prevent and solve problems, and make communications in meetings more effective. Appendices showcase integrated curriculum examples where conversations have been used in unique combinations and list sample questions for each level of the conversation method. With a bibliography and index included and patterned after its highly successful predecessor *The Art of Focused Conversation: 100 Ways to Access Group Wisdom in the Workplace*, this book will be welcomed by parents, students, educators, and school administrators everywhere. The Institute of Cultural Affairs has over 40 years' experience in more than 32 nations. A unique facilitation research and training organization, ICA Canada has provided participatory skills to many thousands of people worldwide.

The All-Day Kindergarten and Pre-K Curriculum Doris Pronin Fromberg, 2012-03-22 Grounded in theory and research, *The All Day Kindergarten and Pre-K Curriculum* provides an activity-based and classroom-proven curriculum for educators to consider as they plan and interact with pre-K and kindergarten children. Allowing young children the opportunities to become independent, caring, critical thinkers who feel comfortable asking questions and exploring possible solutions, the Dynamic Themes Curriculum offers children the skills they need for responsible citizenship and academic progress. This book describes a culturally sensitive pre-K and kindergarten curriculum in the context of literacy, technology, mathematics, social studies, science, the arts, and play, and also discusses how to use the seven integrated conditions for learning to meet and exceed content learning standards, how to organize for differentiated instruction, and to integrate multiple forms of assessment. How to teach literacy tools and skills in fresh ways. How to work with families, colleagues, and community. Building off of author Doris Fromberg's groundbreaking earlier work, *The All Day Kindergarten and Pre-K Curriculum* presents a practical curriculum centering on how young children develop meanings. This is a fantastic resource for pre- and in-service early childhood teachers, administrators, and scholars.
