

## Other Connection Options

USB provides simpler plug-and-play connectivity and enhanced performance. If you don't have any available USB ports, try the following options:

### USB hub

If all of your USB ports are in use, consider purchasing a 4-port or 8-port USB hub. USB hubs, which are available at office and computer supply stores, provide an inexpensive solution for connecting multiple USB devices when your computer has a limited number of USB ports.

### PS/2 connection (Windows only)

Although we recommend connecting using USB, you can use a PS/2 connection option if your product supports PS/2 connectivity.

1. Shut down and turn off the computer.
2. Plug the USB connector into the **USB-to-PS/2 adapter**, and then plug the adapter into your computer's round PS/2 mouse port.
