Alfred Loisy and the Making of History of Religions Annelies Lannoy, 2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France Alfred Loisy 1857 1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy's writings on comparative religion and his rich interactions with famous scholars like F Cumont M Mauss or J G Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890 1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions

**Terms of Exchange** Ian Merkel, 2022-05-06 A collective intellectual biography that sheds new light on the Annales school structuralism and racial democracy Would the most recognizable ideas in the French social sciences have developed without the influence of Brazilian intellectuals While any study of Brazilian social sciences acknowledges the influence of French scholars Ian Merkel argues the reverse is also true the French social sciences were profoundly marked by Brazilian intellectual thought particularly through the University of São Paulo Through the idea of the cluster Merkel traces the intertwined networks of Claude Lévi Strauss Fernand Braudel Roger Bastide and Pierre Monbeig as they overlapped at USP and engaged with Brazilian scholars such as Mário de Andrade Gilberto Freyre and Caio Prado Jr Through this collective intellectual biography of Brazilian and French social sciences **Terms of Exchange** reveals connections that shed new light on the Annales school structuralism and racial democracy even as it prompts us to revisit established thinking on the process of knowledge formation through fieldwork and intellectual exchange At a time when canons are being rewritten this book reframes the history of modern social scientific thought

Lévi-Strauss Emmanuelle Loyer, 2019-01-18 Academic writer figure of melancholy aesthete Claude Lévi Strauss 1908 2009 not only transformed his academic discipline he also profoundly changed the way that we view ourselves and the world around us In this award winning biography historian Emmanuelle Loyer recounts Lévi Strauss's childhood in an assimilated Jewish household his promising student years as well as his first forays into political and intellectual movements As a young professor Lévi Strauss left Paris in 1935 for São Paulo to teach sociology His rugged expeditions into the Brazilian hinterland where he discovered the Amerindian Other made him into an anthropologist The racial laws of the Vichy regime would force him to leave France yet again this time for the USA in 1941 where he became Professor Claude Lévi Strauss to avoid confusion with the jeans manufacturer Lévi Strauss's return to France after the war ushered in the period during which he produced his

greatest works several decades of intense labour in which he reinvented anthropology establishing it as a discipline that offered a new view on the world In 1955 *Tristes Tropiques* offered indisputable proof of this the world over During those years L vi Strauss became something of a French national monument as well as a celebrity intellectual of global renown But he always claimed his perspective was a view from afar enabling him to deliver incisive and subversive diagnoses of our waning modernity Loyer s outstanding biography tells the story of a true intellectual adventurer whose unforgettable voice invites us to rethink questions of the human and the meaning of progress She portrays L vi Strauss less as a modern than as our own great and disquieted contemporary

*Brill's Companion to Classics and Early Anthropology* Emily Varto, 2018-07-17 The chapters in Brill s Companion to Classics and Early Anthropology explore key points of interaction between classics and anthropology from the eighteenth to the mid twentieth century Ancient Greece and Rome played varying roles in early anthropological thinking from the observations of colonial officials and missionaries through the ethnography and evolutionary ethnology of the late nineteenth century and into the professionalized social sciences of the twentieth century The chapters illuminate these roles and uncover an intellectual history of fission and fusion exposing

common interests and opposing methodologies shared theories and conflicting datasets close collaborations and adversarial estrangements In augmenting and reevaluating this history the volume offers a new and nuanced picture of the early formative relationship between the two disciplines

Rethinking Modern European Intellectual History Darrin M. McMahon,Samuel Moyn,2014-03 Modern European intellectual history is thriving as never before It has recovered from an era in which other trends like social and cultural history threatened to marginalize it But in spite of enjoying a contemporary renaissance the field has lost touch with the tradition of debating why and how to study ideas and thus lacks both a well articulated set of purposes and a

range of arguments for exactly what it means to pursue those purposes This volume revives that tradition Recalling past attempts to showcase the diversity and differentiation of modern European intellectual history this volume also documents how much has changed in recent decades Some authors are much readier to defend a history of ideas practiced over the long term once the defining sin of the field Others go so far as to insist on how ideas are always open to reappropriation and reevaluation beyond their original contexts suggesting that it is an error to reduce the ideas to those contexts Others still argue that under threat from trends like social history intellectual historians have forsaken any attempt to resolve for themselves how ideas are socially embodied The volume also registers old and new trends in history that have affected the study of ideas including the history of science the history of academic disciplines the history of psychology and self international and global history and women s and gender history

### **Languages of Belief and Early Sociology in**

**Nineteenth-Century France** Michiel Van Dam,2024-09-27 This book presents a new reading of the history of French social science and religion through an investigation of early sociology s techniques for narrating the category of belief The author argues that by looking at the history of social sciences in this manner we gain a deeper understanding of both our present debates on post secularity as well as our modernist past both of which were thoroughly shaped by their reflections and critiques on the notion of belief yet failed to enter into any sort of meaningful communication with each other This book seeks to rectify this failure by introducing the concept of belief languages an anthropological framework designed to historicize different discussions on belief and allow for their comparative description and analysis

compressed communication and interaction that results from globalization The introductory chapter puts the present effort in the context of the seminal work of three generations of comparative sociologists and what follows is a penetrating analysis of modernization and globality opening the way for rectifying the erasure of the historical experience of a very sizeable portion of humankind from the foundation of social theory [Finance Reconsidered](#) Bernard Paranke,Roland Pérez,2016-09-06 This volume argues the need for a radical break with the methodological individualism that dominates economics management and finance asking How should we re define the concept of value and serving as a stepping stone for the rethinking of academic finance **Le suicide ou le divan intrigué** Ahmed Bouhlal,2022-03-08 Un recueil de cas cliniques tous absolument réels malgré leur tonnante bizarrerie Ils nous sont exposés par un psychiatre narrateur passablement loufoque et sans prétention aucune toujours la recherche d'un café Ainsi le livre se construit sur deux plans les cas cliniques et le micro monde des urgences où le narrateur prérgrine paul d'une quipe un peu spéciale qui se déploie en corolle autour d'un grand maître tout aussi présent qu'absent Mabrouk Seulement voilà Mabrouk a une particularité non seulement on ne sait rien de lui mais sa voix s'élève haut et fort d'un corps constitué de planches et de clous Et oui Mabrouk est un divan un divan qui parle Un psychiatre combien n'vros et un divan abreué par définition de psychanalyse sont les deux pôles entre lesquels se dessine une grande fresque **La psychothérapie : approches comparées par la pratique** Charles-Edouard Rengade,Michel Marie-Cardine,2014-03-11 Cet ouvrage apporte un éclairage nouveau et différent sur la pratique de la psychothérapie et propose une aide efficace au praticien en lui offrant de travailler sur des cas cliniques tirés de l'exercice au quotidien Les auteurs tous deux psychiatres l'un d'orientation psychanalytique clectique et intégrative et l'autre cognitivo comportementaliste confrontent leur approche du patient Ainsi de l'entretien clinique la mise en place de solutions thérapeutiques ils soulèvent les questions fondamentales auxquelles sont confrontés les psychothérapeutes En effet chaque cas part d'une rencontre avec un patient et d'aille un point de difficulté précis selon différents angles théoriques en particulier psychanalytique ou cognitif et comportemental de manière claire et didactique pour proposer des solutions directement applicables dans la pratique quotidienne Cette démarche incite le lecteur à réfléchir sa pratique personnelle ou aux efforts de mise en pratique en répondant à ces questions puis confronter ses propres tentatives de réponse la conceptualisation et l'argumentation proposées par les auteurs Destin aux psychothérapeutes cet ouvrage constitue un outil clair et pédagogique qui apporte des réponses concrètes au quotidien du thérapeute [French Books of Hours](#) Virginia Reinburg,2012-02-02 How was the Book of Hours created and used as a book and what did it mean to its owners **Elgar Encyclopedia of Political Sociology** Maria Grasso,Marco Giugni,2023-12-11 This comprehensive and authoritative Encyclopedia featuring entries written by academic experts in the field explores the diverse topics within the discipline of political sociology By looking at both macro and micro components questions relating to nation states political institutions and their development and the sources of social and political change such as social movements and other forms of contentious politics are raised and

Johnson, 2003-02-27 L vi Strauss is one of the major intellectual figures of the twentieth century His theory of structuralism has been influential not only in anthropology but across the entire field of the humanities and social sciences This book looks at the formative period of his career from the 1940s to the early 1960s where he attempts to define both his own place in anthropology and the place of anthropology in the wider context of the human sciences in France Through a close reading of key texts Christopher Johnson provides an introduction to key aspects of L vi Strauss thought at the same time posing more general questions concerning the construction of theory and the different modes of conceptualization that inform theory Johnson looks at the ideological and autobiographical dimensions of L vi Strauss work and demonstrates how the impact of structuralism as an intellectual movement has clearly been greater than the sum of its theoretical parts
