Handbook of Race-Ethnicity and Gender in Psychology Marie L. Miville,Angela D. Ferguson,2014-02-06 Multicultural aspects of psychology have received some attention in the literature in the last decade A number of texts currently address these significant concerns for example *Counseling the Culturally Different* Sue Handbook of Multicultural Counseling Poterotto et l 2009 and *Handbook of Multicultural Counseling Competencies* Pope Davis Coleman 2005 In their most recent editions several of these books address more nuanced complexities of diversity for example the intersections of gender or social class with race ethnicity Meanwhile other texts have addressed gender issues in psychology *Handbook of Counseling Women Counseling Men* with some attention paid to racial ethnic and other diversity concerns Clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology However no book currently exists that fully addresses the complexities of race ethnicity and gender together Better understanding of the dual impact of race ethnicity and gender on psychological functioning may lead to more effective conceptualizations of a number of mental health issues such as domestic violence addictions health related behaviors and achievement Exploring the impact of race ethnicity and gender also may provide a broader understanding of self in community as this affects individuals families and other social groups and work and career development Topics of interest may include identity development worldviews and belief systems parenting styles interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities Today s world is comprised of multiple and intersecting

communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health We believe that utilizing unidimensional conceptual models e g focusing solely on race ethnicity or gender no longer adequately addresses psychological concerns that are dynamic complex and multi faceted The proposed Handbook will focus on timely topics which historically have been under addressed for a number of diverse populations

Multicultural America Carlos E. Cortés,2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U S Census data to examine multiculturalism today and tomorrow in America This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U S growth since 2000 due to immigration and higher birth rates for Latinos According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations Both non Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added Another demographer William H Frey with the Brookings Institution told The Washington Post that this has been a pivotal decade We re pivoting from a white black dominated American population to one that is multiracial and multicultural Multicultural America A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of

specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today Pedagogical elements include an introduction a thematic reader s guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U S Census Data Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today s students with 100 videos with transcripts from Getty Images and Video Vault the Agence France Press and Sky News as reviewed by the media librarian of the Rutgers University Libraries working in concert with the title s editors

Just Schools Martha Minow,Richard A. Shweder,Hazel Rose Markus,2008-04-22 Educators and policymakers who share the goal of equal opportunity in schools often hold differing notions of what entails a just school in multicultural America Some emphasize the importance of integration and uniform treatment for all while others point to the benefits of honoring cultural diversity in ways that make minority students feel at home In Just Schools noted legal scholars educators and social scientists examine schools with widely divergent methods of fostering equality in order to explore the possibilities and limits of equal education today The contributors to Just Schools combine empirical research with rich ethnographic accounts to paint a vivid picture of the quest for justice in classrooms around the nation Legal scholar Martha Minow considers the impact of school choice reforms on equal educational opportunities Psychologist Hazel Rose Markus examines culturally sensitive programs where students exhibit superior performance on standardized tests and feel safer and more interested in school than those in color blind programs Anthropologist Heather Lindkvist reports on how Somali Muslims in Lewiston Maine invoked the American ideal of inclusiveness in winning dress code exemptions and accommodations for Islamic rituals in the local public school Political scientist Austin Sarat looks at a school system in which everyone endorses multiculturalism but holds conflicting

views on the extent to which culturally sensitive practices should enter into the academic curriculum Anthropologist Barnaby Riedel investigates how a private Muslim school in Chicago aspires to universalist ideals and education scholar James Banks argues that schools have a responsibility to prepare students for citizenship in a multicultural society Anthropologist John Bowen offers a nuanced interpretation of educational commitments in France and the headscarf controversy in French schools Anthropologist Richard Shweder concludes the volume by connecting debates about diversity in schools with a broader conflict between national assimilation and cultural autonomy As America's schools strive to accommodate new students from around the world Just Schools provides a provocative and insightful look at the different ways we define and promote justice in schools and in society at large

The NIH Record, 1994 Achieving Educational Equality Herbert Grossman, 1998 Strangers Among Us Roberto Suro, 1999-05-18 Strangers Among Us is a lucid informed and cliché shattering examination of Latino immigration to the United States its history the vast transformations it is fast producing in American society and the challenges it will present for decades to come In making vivid an array of people places and events that are little known to most Americans the author an American journalist who is himself the son of Latino immigrants makes an often bewildering phenomenon vastly more understandable He tells the stories of a number of large Latino communities linked in a chronological narrative that starts with the Puerto Rican migration to East Harlem in the 1950s and continues through the California bound rush of Mexicans and Central Americans in the 1990s He takes us into the world of Mexican American gang members Guatemalan Mayas in suburban Houston Cuban businessmen in Miami Dominican bodega owners in New York We see people who represent a unique transnationalism and a new form of immigrant assimilation foreigners who come from close by and visit home frequently so that they virtually live in two lands Like other groups of immigrants who preceded them onto American shores Latinos as they begin to find a place for themselves here are changing the way this nation thinks of itself These are people who defy easy categorization they are neither white nor black their households often include both legal and illegal immigrants most struggle toward some kind of economic stability but so many others fall short that they have become the new face of the urban poor Some Latinos endure the special poverty of people who work long hours for wages that barely ensure survival Their children grow up learning more from their televisions than from their teachers knowing what they want from America but not how to get it Looking to the future we see clearly that the sheer number of Latino newcomers will force the United States to develop new means of managing relations among diverse ethnic groups and of creating economic opportunity for all But we also see a catalog of conflict and struggle Latinos in confrontation with blacks Latinos wrestling with the strain of illegal immigration on their communities Latinos fighting the backlash that is denying legal immigrants access to welfare programs Critical both of incoherent government policies and of the failures of minority group advocacy the author proposes solutions of his own including a rejection of illegal immigration by Latinos themselves paired with government efforts to deter unlawful journeys into the United States and a new emphasis on English

language training as an aid to successful assimilation Roberto Suro has written a timely controversial and hugely illuminating book Health Promotion in Multicultural Populations Robert M. Huff, Michael V. Kline, Darleen V. Peterson, 2014-01-02 Edited by Robert M Huff Michael V Kline and Darleen V Peterson the Third Edition of Health Promotion in Multicultural Populations offers both students and practitioners an indispensable resource on assessment and implementation guidelines for promoting health and enhancing behaviors that optimize health in any cultural community Leading experts explore a wide range of topics including the context of culture cross cultural perceptions of health conceptual approaches to multicultural health promotion health disparities and the contributions of multicultural populations Using the Cultural Assessment Framework CAF this proven handbook includes a focus on six specific populations Hispanic Latino African American American Indian and Alaska Native Asian American Pacific Islanders and Arab Americans The text concludes with a set of tips for working cross culturally and a discussion about where the field is heading with respect to research and practice in the 21st century
