Thwala, 2019-08-09 This book gathers papers from the 11th Construction Industry Development Board cidb Postgraduate Research Conference held on 28-30 July 2019 in Johannesburg South Africa. The conference provided an essential forum for reviewing and generating knowledge on Construction 4.0 and consequently highlighted processes and practices that allow us to deliver and operate built environment assets more effectively and efficiently by focusing on physical to digital and digital to physical transformation. The event addressed three broad themes: Industrial production, prefabrication, 3D printing and assembly offsite; and advanced manufacturing, Cyber physical systems, actuators, sensors, IoT, robots and cobots for repetitive and dangerous tasks; and drones for mapping, progress monitoring, safety and quality inspections, lifting, moving and positioning. Technologies: digital ecosystems, digital platforms, BIM, video and laser scanning, AI and cloud computing, big data and data analytics, reality capture, blockchain, simulation, virtual and augmented reality, data standards and interoperability and vertical and horizontal integration. Given its scope, the book will be of interest to all construction industry and architectural professionals who want to learn about cutting edge technologies applied to construction. **Managing**

Diversity and Equality in Construction Andrew W. Gale, Marilyn J. Davidson, 2006-07-28 With women in the UK construction industry constituting just thirteen per cent of the workforce and black and Asian workers numbering less than two per cent, despite representing more than six per cent of the working population, diversity is a problem that the construction industry needs to tackle directly. In this title, diversity management is presented as an opportunity for the construction industry. Work is presented from several different countries and regions in North America, Australia and Europe to provide a comprehensive picture of this complex and often sensitive issue. Going beyond the traditional topics of gender and racial discrimination, contributions encompass a wide range of diversity issues facing the construction industry, including sexual orientation, disability and the work-life balance. Essential reading for construction managers and a valuable resource for postgraduate researchers, this key title provides not only a thorough exposition of contemporary research but also supplies the practical diagnostic tools and techniques to successfully manage diversity in construction and the information to adhere to the law. **Occupational Health and Safety in Construction Project Management** Helen Lingard, 2005 This

book addresses an increasingly important area in the construction industry. Case studies are used extensively to illustrate important points and refer to current successful safety management techniques. **Engaged Learning and Innovative Teaching in Higher Education** Will W.
