Soundmaking, Magic and Personality Jacqueline van Ommeren,2023-08-14 *The Abusive Personality* Donald G. Dutton,2006-12-19 This influential book provides an innovative framework for understanding and treating intimate partner violence Integrating a variety of theoretical and empirical perspectives Donald G Dutton demonstrates that male abusiveness is more than just a learned pattern of behavior it is the outgrowth of a particular personality configuration He illuminates the development of the abusive personality from early childhood to adulthood and presents an evidence based treatment approach designed to meet this population s unique needs The second edition features two new chapters on the neurobiological roots of abusive behavior and the development of abusiveness in females **Prohibition of Sex**

Discrimination, 1975 United States. Congress. Senate. Committee on Labor and Public Welfare. Subcommittee on Education,1976 *Green Psychology* Ralph Metzner,1999-06-01 A visionary ecopsychologist examines the rift between

human beings and nature and shows what can be done to bring harmony to both the ecosystem and our own minds Shows that the solution to our ecological dilemma lies in our own consciousnesses It is becoming more and more apparent that the causes and cures for the current ecological crisis are to be found in the hearts and minds of human beings For millennia we existed within a religious and psychological framework that honored the Earth as a partner and worked to maintain a balance with nature But somehow a root pathology took hold in Western civilization the idea of domination over nature and this led to an alienation of the human spirit that has allowed an unprecedented destruction of the very systems which support that spirit In *Green Psychology* Ralph Metzner explores the history of this global pathology and examines the ways that we can restore a healing relationship with nature His search for role models takes him from shamanic ceremonies with the Lacandon Maya of Mexico to vision quests in the California desert from the astonishing nature mysticism of Hildegard von Bingen to the Black Goddesses and Green Gods of our pagan ancestors He examines the historical roots of the split between humans and nature showing how first sky god worshiping cultures then monotheisms and finally mechanistic science continued to isolate the human psyche from the life giving Earth His final chapters present a solution showing that disciplines such as deep ecology and ecofeminism are creating a worldview in which the mind of humanity and the health of the Earth are harmoniously intertwined **Routledge Library Editions: Organizations (31 vols)** Various,2021-12-02 Re issuing

volumes originally published between 1949 and 1995 this 31 volume set examines the theory and behaviour of organizations Topics covered include the sociology of work leadership and organizations politics at work theory and practice of company

outward expansion and the pursuit of perpetual growth We would then achieve a way of life that is materially and institutionally simple but culturally and spiritually rich one in which humanity flourishes in harmony with nature
