Invisible Strings Naledi Mashishi,2023-07-20 Mamokgethi s life is brought to an abrupt halt by an unplanned pregnancy Students' participation in university governance in South Africa Vuyo Mthethwa,2023-03-01 The purpose of this book is to examine the academic experiences of students who participated in university governance at South African universities Scrutiny is placed on the alignment of student representative council constitutions and university statutes with the actual experiences students had in discharging their roles in governance and in the way this impacted their academic progress Through a multi site case study design semi structured interviews were conducted with members of the student representative council who participated in university governance and supported by document analysis and observations to generate the data The study adopted Tinto s Integration Theory and Astin s Theory of Involvement as the two frameworks are based on the relationship between students extra curricular activity and their academic experiences The study invokes a greater awareness of students as major stakeholder in governance and informs policies and practices that may better serve students academic experiences The study will contribute to the understanding of cooperative governance principles while drawing from the perspective of the students on their understanding limitations and challenges in discharging their roles in university governance The Law of South Africa ,1976 **Annual Report** South Africa. Department of Basic Education,2016 Discrimination in an Unequal World Miguel Angel Centeno,Katherine S. Newman,2010-09 Is globalization making our world more equal or less Proponents of globalization argue that it is helping and that in a competitive world no one can afford to discriminate except on the basis of skills Opponents counter that globalization does nothing but provide a meritocratic patina on a consistently unequal distribution of opportunity Yet despite the often deafening volume of the debate there is surprisingly little empirical work available on the extent to which the process of globalization over the past quarter century has had any effect on discrimination Tackling this challenge Discrimination in an Unequal World explores the relationship between discrimination and unequal outcomes in the appropriate geographical and historical context Noting how each society tends to see its particular version of discrimination as universal and obvious the editors expand their set of cases to include a broad variety of social relations and practices However since methods differ and are often designed for particular national circumstances they set the much more ambitious and practical goal of establishing a base with which different forms of discrimination

across the world can be compared Derived from a broad array of methods the book draws many important lessons on the new means by which the world creates social hierarchies the democratization of inequality and the disappearance of traditional categories Study SA ,2006 **National Youth Development Agency Annual Report** South Africa.
